"SPARKS"

SUPPLEMENT # 1 SPRING 1975

STATIC ROOM LOG OF THE WIRELESS PIONEERS

NEWSLETTER SUPPLEMENT

Library - California Historical Radio Society

Welcome Aboard !

Just in time. We're about to cast off on another cruise to Ports of Romance (?) and Nostalgia. I am sure you will enjoy the voyage. If you are a new member - a special welcome. We will enjoy having you aboard with us so that us 'old timers' will have someone new to 'shoot the breeze' with in the ship's static room.

By the way - the old 'rust-bucket' has a full passenger list for this voyage. As I write this, over five hundred blithe souls have joined our cruise this year. The S.S. OZONE has life-boat capacity for 2000 and since our passengers and crew number only 1965, we can accommodate all - just in case an SOS is necessary. However, we are reasonably sure the Skipper and Crew will bring you back to port all shipshape.

I guess it was Sir Isaac Newton back in 1687 (plus or minus a few years) who came up with the theory that . . . "bodies at rest tend to remain at rest, while bodies in motion, tend to remain in motion." I guess that SOWP is a body in motion! Sometimes, as founder, I stop to ask myself . . . "WHY?"

I think part of the answer lies in a remark made by our First Canadian Director, JIM KITCHEN, a long time ago. He called the Society . . . "The Let's Get Together Society" because we probably have done more to bring people together than any organization in our contemporary field.

We do have proof positive that the Society was instrumental in reuniting many old shipmates and friends. In fact hardly a week goes by that we do not receive a "thank you" for our role.

The Society's directories, amateur nets, chapter meetings and reunions all contribute to bringing old friends together. We are happy that the Society has played such an enjoyable role in the lives of many. We even have a marriage or so where the Society, not realizing it, played cupid.

The Society's publications also seem to have hit a very responsive chord. We have received hundreds of letters from members expressing their appreciation and thanks for the last issue of SPARKS. It looks like our helmsman is "on course" so no reason to change heading at this time.

Another subject. This one 'spooks' me a bit. Ye Ancient Mariner (YAM for short) would like to answer every letter he receives - in depth. However, with membership nearing the 2000 milestone (ever hear of a 'knotstone'?) it is becoming almost impossible to find time to reply to the large volume of mail flow-

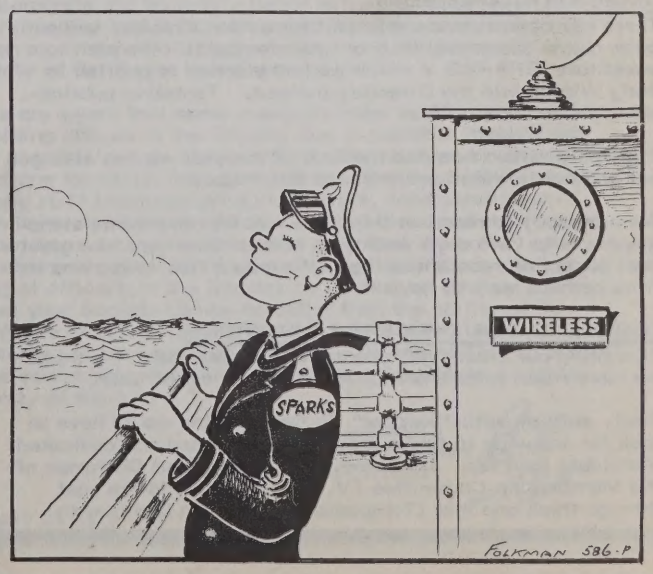
(Continued on next page)

CAPTION CONTEST

LIKE CONTESTS ?

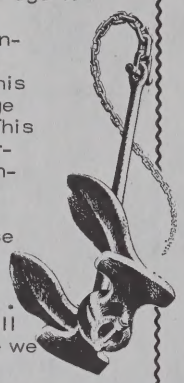
Here we see "SPARKS" drinking in the beauty of nature and enjoying to the fullest, his assignment aboard the SS OZONE. He has just finished 'clearing' the hook, typed up a page or so of PX, sent up the last time 'tick' from NAA over the tube and so now, in relaxed mood, he is enjoying the environment in a carefree and exuberant spirit.

Our Cartoonist, Ralph Folkman (586-P) captioned the cartoon . . . "FRESH UNPOLLUTED AIR" with subcaption..."BIG FRINGE BENEFITS". He thought it might e fun to let members come up with their own version of a caption in a contest... So, send in your suggested caption . We will publish them all in some future issue. We think it would be a lot of fun. The WINNER of our contest will receive . . . (hold it) . . . a big bag of Santa Rosa Ozone (the worst kind). Additionally, as mentioned, your name will appear in 'CAPTIONS" in an early issue of our Newsletter or Sparks.



The "Get-to-gether" Society

YE ANCIENT MARRINER - CONTINUED FROM Page 1.



ing over his desk and the lack of time to enable answering correspondence perhaps 'bugs' him more than the sender not receiving a reply. At least this will let you understand the situation and not charge him with lack of interest or common courtesy. This is perhaps the most frustrating aspect of the otherwise delightful undertaking. We hope you will understand and make allowance for the situation.

This is not intended to discourage letters. Please continue to send them, even with the knowledge there may be extended delays, as the news, data and history will be used in one way or another . . . and we do appreciate them VERY MUCH. We will do our level best to answer promptly - but in case we do not, please bear with us.

Now about future publications:

Most of the contents of the coming edition of PORTS O' CALL has already been typed up and we hope to get it in the mail by early summer. Many members have ordered extra copies of this issue some time ago. They are still on file and will be mailed as ordered. If any wish to rescind their orders, we will be glad to do so, either refunding purchase price or crediting to your account. Future orders will be accepted conditionally on stock available.

SPARKS IV

The next issue of this book is scheduled for early fall (about Sept. 15th). Much of the material for this issue has also been typed. If you liked SPARKS III, we are sure you will enjoy the new edition.

DIRECTORY - CALL BOOK

There has been considerable call for a new Directory and call book due to the great influx of new members. We plan to substitute SPARKS V which we had planned to publish in early Winter with the Directory instead. Tentative publication date is Nov. 15th.

Perhaps between now and the first of the year we can also get out another Newsletter similar to this issue.

We are happy to report at this time that we have some stenographic help (two days weekly). It does take care of a great deal of routine record keeping. We would like more, and in time perhaps we will have it.

TRIBUTE TO OUR OFFICERS & DIRECTORS

"Counting our blessings" should not be seasonal. We think we have much to be thankful for every day of the year.

First, starting with "Skipper" Eb Cady. One would have to look far and wide to find a more loyal, devoted and dedicated individual than Eb. Likewise, John Elwood our Chairman of the Membership Committee (V.P.) has stuck to his post through thick and thin (Tempests and Halcyon Days) with dedication and devotion seldom found. We all thank Eb and John. Likewise, our Treasurer, Lorin De Merritt - a man we trust implicitly to get the job done - especially tax matters concerning I.R.S., State of California, etc. He has a knack for the plotting of a course through Forms 940, 941, 1040-A DE-43-A, etc., etc., even without radar. You would be surprised at the amount of time and cost this non-profit organization has to spend on processing of government forms.

TEMPUS FUGIT !

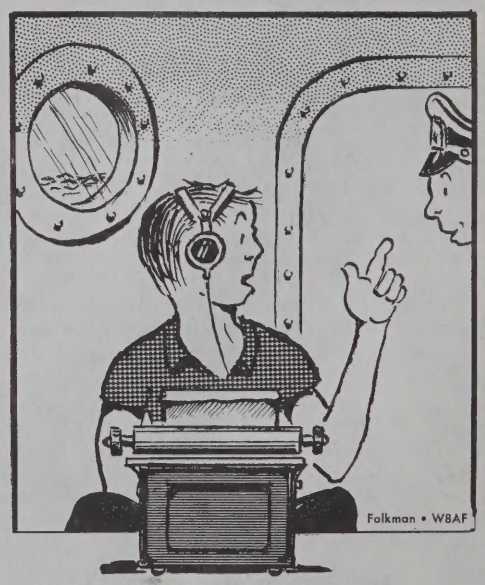
Hard to believe but true. Our Chief Operator of the SOWP AMATEUR NET (CHOP) Robert L. Shrader - W6BNB has been 'on duty' every week for the last three years (since he relieved "Al" Brodnax - W6HLD. Not only 100 percent dependable but one of the 'best fists' on the air. He has asked to be relieved after this long tour of duty so our good member, OSCAR T. HARRISON - W5QKU will take over starting this fall. "Bob" has done a wonderful job in the handling of our Amateur Net. Well done ! OM and T.U.

William C. "Bill" Willmot is not exactly a 'new-comer' but he has sure been a human dynamo for the Society. He not only started a Florida Net but he organized the THOMAS A. EDISON CHAPTER which had a very fine meeting a few months back at Sun City Center. He also has been responsible in a large way as our new Vice President P&R, in spreading the word about the Society far and wide through his many releases to the media. We suspect he works 35 days out of every month to turn out the volume generated.

We have have so many more of sterling quality that we sort of take for granted - always doing a 'top' job and watching out for Society interests. These include Arthur W. "Bill" Filtness, our Canadian Director who literally lives and breaths SOWP and who has done a remarkable job in getting our Canadian members together for monthly meetings, etc.,

John F. "Tex" De Bardeleben - W7TE has done a magnificent job in organizing the CAPITAL AREA CHAPTER during the last year. They have held many meetings in and about the Nation's capitol.

(CONTINUED ON PAGE 3)



"IT WASN'T SO BAD WHEN THE SKIPPER WAS SATISFIED WITH THE PRESS, TIME SIGNALS AND THE WEATHER REPORTS... NOW HE WANTS THE 'DEAR ABBY' DAILY COLUMN."

California Radio Historical Society

Judge James Harvey "Jim" Brown has helped us out of a hole when our beloved Charlie Lee was unable to carry on for Chapter III. This in a large measure is true of member Fred Mangelsdorf who took over from "Don" Newman who transferred out of the area. Fred just piloted the Golden Gate Chapter through one of its finest meetings and reunions at the Villa Chartier. What most members at the Villa didn't know that Fred was hospital bound the next day. The trouble in starting a list of this kind is that you never get through when it comes to listing the avante-garde and members of the Society's "booster Club". For example, members like Prof. "Herb" Scott (officer w/o portfolio, so to speak) spread the word far and wide about the Society to the AARP group who number over three and a half million strong. As a result, many "SGP" and "P" members have joined from this group. Historian Dexter S. Bartlett who has spent countless hours on research for the Society. He; has been chosen by the DeFOREST PIONEERS, Inc., as recipient of the "deFOREST CERTIFICATE AWARD" this year. Award presentation scheduled for May 2nd 1975 at their 23rd Annual Awards Dinner. Presentation will be made by Mr. Jack R. Poppele, President.

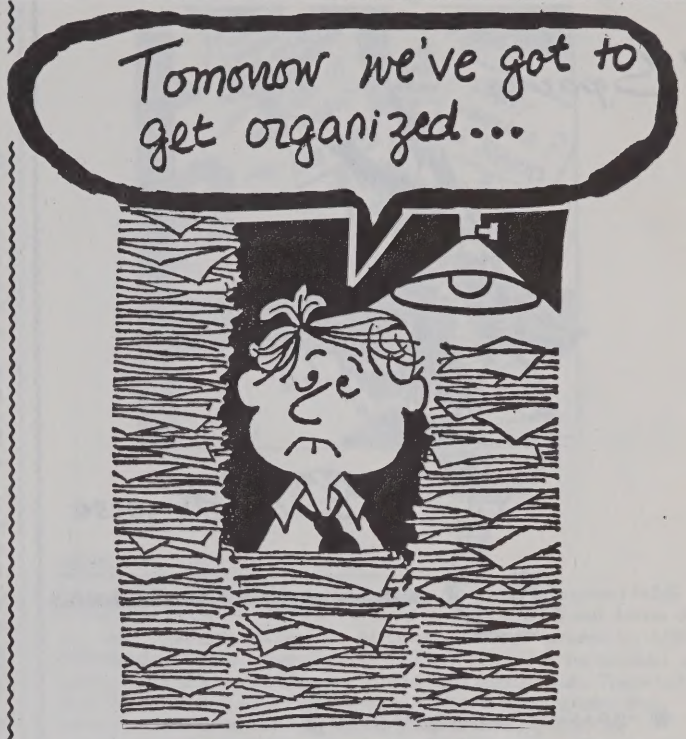
Lets not overlook Charlie Maass and the fine record he has made for the "ELMO PICKERILL" Chapter X. Ditto for "Ev" Henry and the "OTIS MOORHEAD" Chapter IV. Our totally dedicated Charlie Lee who relinquished his poste for ... "the good of the Chapter... when illness prevented him from carrying on. (we all hope he finds the right 'combination/cure' to bring him back 100 percent). Ralph Folkman for his help and fine cartoons. Thom L. Mayes for his technical articles and assist in showing some of the early day wireless artifacts and memorabilia at various meetings. Mario Spagna and Butler Osborne for making arrangements for the "Rededication of the Marconi Memorial in San Francisco Dec. 1974 by the Society. Ed Raser, Joe H. McKinney, Wilbur Gross, John Holland, William A."Bill" Fuller, Gordon Pascoe, Capt. E.J. Quinby, Lew Clement, Ken. C. Woodman, Cor. Glerum, Charlie Blake, Brandy Wentworth, Ernie Wilmshurst, Howard Cookson, Gilson V. "Radio Rex" Willets, Karl Baarslag, Donald K. deNeuf, Ray Green, Earle Wohler, Emil A. "Al" Holgerson, John Peel, "Eby" Conradt-Eberlin, Al Woody, C. Ferland, Jim Kitchin, Al Dick, A.P. Stark, Eunice Thompson, G.E. Travis, Don Wright, Ken Richardson, Mel Oliver, Earl Korf, Andy Clark, (Florida Skip), Bruce Kelley (AWA) Jock Maclaren. The list is far from complete and we offer sincere appologies beforehand for those who should be included in the list but are not.

We have held out one especially dedicated chap to wind up our list of "Kudos" with and that is the 'one and only' "PETE" Fernandez who not only keeps our 'grid from leaking' but in his own way, keeps us on frequency, eschewing latent danger of our master-oscillator doing a double-burn due to lack of filling the upper-chamber with sufficient 'bayou-juice' (found only in Florida). While Pete, whose real name is Col. Manuel Fernandez, USAF/RET. with call W4SM has some tolerance for D.Y's. and "Snowbirds" from North of the Mason-Dixon Line, he is in his 'element' with the Hominy Grit and Black eyed pea crowd down in Key West, especially with a mint julip sitting within reach. We suspect that Pete can hold his own in most any part of the world but we are extremely lucky to have him as our Area Director in this 'Rebel stronghold'. Pete often reminds me ... that the South will 'rise again!

We'll have to leave the future to history.

Before you switch to another channel, I might as well fill you in with another item or so of general interest.

First, you will note the templet marks on the left side of Page - 1 for 3-hole punching. Many have indicated that they would like their call books, directories and publications of this nature so marked. We are not actually



punching the pages as many may not wish it, however those who do wish, can easily punch their own copies.

This will fit in with the CHAPTER/NET BULLETINS which are now designed for maintenance in 3-ring binders. These weekly bulletins are furnished only Chapter Director and Net CHOPs for their info.

INCORPORATION

This is something we have 'kicked around' for as many years as we have existed. Several of our members who are 'leagle-beagles' felt a few years ago that the organization was too small to bother - that the record keeping over-rode the good and that inherent danger to officers was very small.

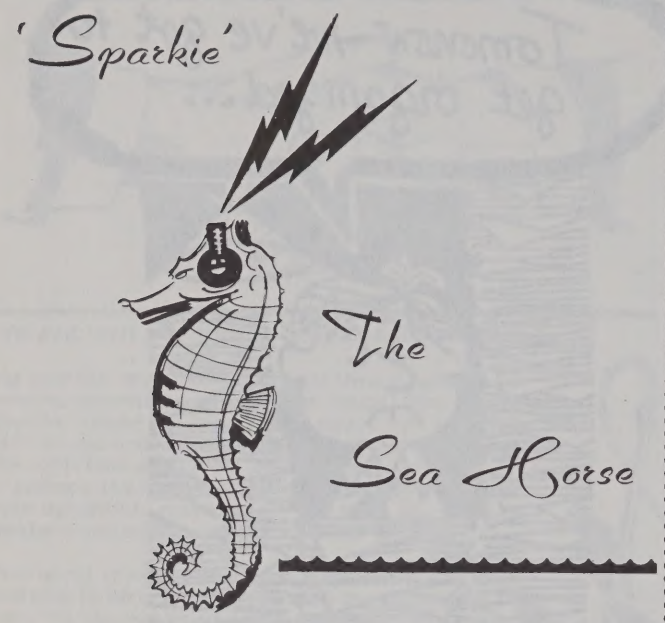
Now that the Society is no longer a 'small' organization, the Directors and Officers think the time has come to Incorporate the Society - hence action is being taken in this respect and it is anticipated that papers of Incorporation as a "non-profit" organization will be granted by the State of California in the near future.

We are aware that some members have shied away from holding offices in the Society due to possible involvement or possible danger of jeopardizing themselves to liable actions for which they were not responsible. While we do carry full insurance on such matters, incorporating will limit involvement by officers and directors and shield them from from such potential. We hope that the action will enable us to draw spme of our 'gifted' members into accepting of office/s in the Society as it must be obvious to all that your Society can be no better than the ability of its officers and their willingness to give of their time and talents. Lets hope that this step will underwrite and insure the continued growth and value of our Society as a viable entity of the future.

William A. Breniman
Executive Director.

Bill

April 25 1975



◉ "SPARKIE" HIPPOCAMPUS is his name
The seas and oceans -- his domain . . .

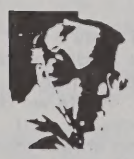
◉ While invisible gremlins haunt pilots up in the blue
Sparkie can 'hex' wireless men with bad static too.

◉ While this doesn't rhyme worth a dime
(We didn't want to QRX to some other time).

◉ Member Kyle Thompson created "Sparkie" and sent him to me
So from now on I'll 'hex' you with Sparkie - with glee !

PS: 'Ye Ed' lost his 'poetic license' on this one.

PPS: If you can conjure up some good "Sparkie" rhymes, Send it in - we just might publish it some time . - 30 -



KYLE E. THOMPSON

Not only did Kyle (W6BNJ) send us " SPARKIE". He also drew the cover for this issue of the News Letter. FS: USS JASON/NCVU back in 1945. Kyle is Member No. 908. T.U. OM.

CONGRATS

Kyle and XYL Lois just returned from a trip to Hawaii. Occasion: Celebration of their 25th Wedding Aniv. While in Honolulu Kyle reported visiting with several SOWP members including George Chinn and also "Eby" (Capt. Viggo Conradt-Eberlin) of Seattle who is also spending time in the Islands. "Eby" has contacted many of the SOWP members in the Islands and has reported there is much sentiment for the formation of a "Hawaii" (Aloha) Chapter. There will probably be a 'reunion' of Island members in the near future at which the proposed Chapter will be discussed.

for your information

ACRONYMS

The Dictionary of "ACRONYMS & INITIALISMS" published by The Gale Research Company (4th Edition) lists over a dozen Acronyms for "SWP".

When the Society first started we used the letters "SOWP" for a short abbreviation to denote the Society. Later, it was suggested that we change to "SWP" to shorten transmissions and correspondence. This we did a couple of years ago.

Regretfully, the initials have come into disrepute lately due to SWP beling linked by newspapers and other media as being responsible for bombings. Of course the allegation connects the letters with a well known organization which has no contact or relation with the Society in any way .

Therefore, we think it wise to revert to " S O W P " and have requested this be done by Society nets. We also think all members should discontinue the SWP usage as we no longer sanction it in any way.

We are quite sure there is no group of people in the world who are more 'law abiding' or peace loving' than members of our good Society. It is noted that there are no Acronyms for SOWP listed, hence we are requesting Gale to list this one for our official use.

Members of the Society are requested to observe this suggestion in all correspondence and radio transmissions.

SOS CQD INFO....

The first emergency calls sent by wireless for assistance was the word "HELP" which was sent by the Goodwin Sands Lightship off the South Coast of England on March 3 1899 when she was rammed by the S. S. Matthews. The call was picked up by the South Foreland Lighthouse and lifeboats were sent to the rescue. Six years later, Relief Lightship No. 58 on duty at Nantucket Shoals sank in a bad gale. The crew was rescued by the LH Tender Azalea after operator C.J. Blankership and Bill Snyder sent the first (American Station) call for H E L P . This was before the days of CQD and SOS.

Other calls in later years were SOE used by the Germans. Many years later SSSS and TTTT were used.

We would appreciate information on the development and use of ALL DISTRESS CALLS USED over the years. The of CQD and SOS are well documented but news on some others are quite sketchy. If you can document information on distress calls, we would appreciate as much information on the subject as you can furnish.

REPEAT

At the risk of being repetitious, we would like all members to assist on a 'project' we think will be of great interest and of historical importance.

We are trying to list all wireless/radio officers who have had occasion to SEND calls for help. SOWP Historian Dexter S. Bartlett and Bill Breniman have been working for some time to develope such a list. We would like to make it as complete as possible. Data to include time and date of emergency, name of ship or aircraft or other conveyance on which radio used and call sent, location, kind of emergency and other details as available such as whether sending of emergency signal saves lives and

(Continued on Page 5)

Letters

...from SOWP Members

EARL W. KORF - 613-P (K2IC)

Earl took the SS Sea Ranger/KDRL out in 1924. Later he was with Alaska Packers and wrecked in the South Seas on the Barkentine Mary Winkleman. He reported that he has made considerable effort to contact or visit HOWARD COOKSON who had a heart attack (bad) some time back. He is in a nursing home. Unable to obtain any info to date. Golden Gate Chapter members were pleased to have Earl as our guest at our meeting April 19th. All enjoyed an 'eye-ball' QSO and fine visit. Come again.

WE GET LETTERS ?

We have received about five letters in the past two months without any correspondence or transmittal material inserted. Just empty envelopes, but all sealed. One came from far away England too. We suspect these five members (?) are wondering why we don't reply. In all cases, there were no return addresses on the envelopes.

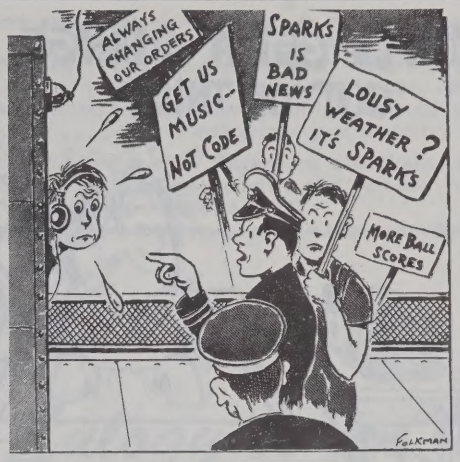
RAYMOND J. GREEN - 395-SGP

Recent letter from Ray who adds the by-line . . . "The Vanishing American Marconi Wireless Telegrapher" (Move over Ray, you'll have a lot of company). Reminds me of Sparks who experienced an untimely demise (he touched a 'hot' lead-in.) Entering what he thought were the 'Pearly Gates" he recognized one of his former shipmates with a beautiful damsel sitting on his lap caressing and making over him. Said Sparks ..."Boy, its sure FB to be here in heaven !" Said the Shipmate in reply ... " Sparks, it ain't what you think... This is not heaven, its Hell. I am her punishment"! (joke over). Now to get back to Ray: Wonders out loud why his "Fall River Line Story" is not in print. Be patient Ray... it has been typed up for SPARKS IV but first comes this N.L. then POC ... THEN S-4. Okay ? Ray reports that Tony Tamburino from the Leviathan days writes he has been in poor health (we are sorry to hear). Reports "good times" in Florida - Hunert $ bills and Cadillac's all over the place. No one would ever know we had a depression !

DAVE FORMAN - 1800-P

The "Get-to-gether" Society brought me in contact with Dave now living in Glendale, CA. I relieve him at KCU, Fresno in 1929. Dave left before I reported in so never met him except to work over the air. After a lapse of 45 years, Dave's application for membership comes in. I ask him if he was THE Dave Forman (?) I RJ'd ? Yup ... he replied. He added a long letter, part of which I will quote:
"Bill, I've got to say that I'm certain as salt and pepper that you have 'carte blanche' into Paradise for all the good you are doing, but if you ever get to believing your're leading a dog's life, just make it legal as a Retriever - you surely know how to bring back a stick of memories !

Had never dreamed you shipped such a precious cargo of experience I would have boarded your craft with bandana pirates and ransacked all the jewels of bygone collections (speaking of SOWP Publications). Dave was one of the 'early birds' with the (now) FAA. He joined when it was still the Aeronautical Branch of the U.S. Lighthouse Service. However, first assignment was back in 1917 on the USS ISIS/NQA. He also sailed on the Yale/WRY 1917/18, the Sierra, Brookings, etc.



SOCIETY OF WIRELESS PIONEERS

JOSEPH L. PUCKETT - 1792-P

Sez JOEY whose QTH is Okla. City and was assigned NSS Annapolis back in 1919 - "Would like to smoke out some of the long 'losted' shipmates at Great Lakes, Harvard U. USN Pensacola, Phila Navy Yard or NSS. Joey sez he growed up in the back woods of Ozarks in Eastern Hoklaoma. Their talk didn't bother but when he came out of the hills where they called a creak for a crick, cheers for chairs, yellar for yellow or givernment for government, those were strange ways of pronouncing woids never heard of before. Joey sez..."Our old mangy dawg has flees, the cow has a new calf, the old cat has a new bunch of kittens and I hopes you'alls air enjoying the same blessing. Yours till Niagara Falls. So let that bees a lesson son. PS. Now you kin have sympothy for old Bill Willmot over at Kape Kennedy and understnt why he sicked me onto some one else no doubt by dag-nag.

GOVE, KENNETH G. 1770-P

"Ken" whose QTH is Winter Haven Fla. told us he tried to get Earl Leith, an old time communicator to join up but Earl said he never wiggled a bug or punched a key. Ken and XYL Elizabeth returned from a trip to the "SPANISH MAIN on the MS. BOLERO. The Bolero has a Spanish name but is registered in Oslo and sails under the Norwegian flag with a Norske Captain, mates and engineers. It was built in France and chartered to the Commodore SS. Lines - a Canadian outfit. The purser was American, the cabin stewards all from the West Indies and the mess-hall and galley people from Korea and China. Departs Miamia weekly in winter and runs between Portland, Maine and Yarmouth N.S. in the Summer months.

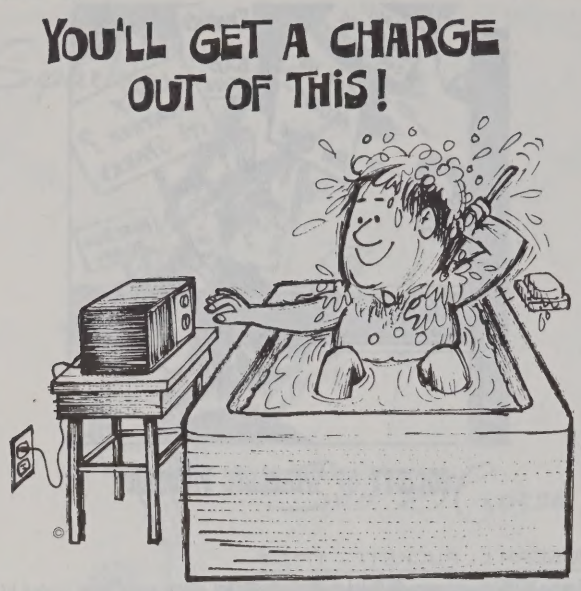
(Continued to Page 6)

SOS...____...SOS...____...SOS

SOS/CQD INFORMATION REQUESTED (From P-4)

property (way in which the emergency ended, etc.). Your report might already be on file but we would like to check and verify all such episodes as it would be better to discard any duplicate material or information than to have it missing in our listings. Of course, name of wireless or radio officer who participated in SENDING the emergency is of prime importance. We would like to have the name/s of other participating plus ship that answered calls (or land stations). However only the sending officer will be the one listed in the records.

Bill Breniman



"Ken" said he thought he would try and contact the Radio Officer and tell them about SOWP. Here is his story.... " I found one of the radio operators, a "YL" who, by her shoulder boards appeared to be the second operator. I found out she was also Norwegian when I spoke to her so by way of "breaking the ice" showed her my membership card in the SOWP. She studied it for a minute, then reared back saying ... "So!" No trace of a smile or a welcome, So I explained I would like, since I had many years ago been also a radio operator to see the " Radio Shack". This was a mistake. She reared back even further and practically spit out the word "Shack!" Needless to say, I never did get to see the 'shack' nor to meet the other operators.

Ken also mentions GEORGE EARLE COLE and through him we have some very interesting charts which we will publish in an early issue of SPARKS.

TESLA VS MARCONI

We do get interesting mail ! Some of it takes us to task because, they indicate, that we say or imply that "Marconi invented the Wireless", while they can prove... T'aint so, McGee !

First - We have never claimed that Marconi invented the wireless. Matter of fact, the great man himself, to our knowledge, has never made any such claim and to the contrary has vigorously denied that he did. All he did was to take some isolated theoretical developments of other people, put them together in a PRACTICAL fashion, contributed some ideas of his own, and produced a system capable of transmitting information across space without the use of connecting wires.

We have sent most of these letter to Prof. Herb Scott who finds the material furnished of considerable interest. He patiently goes through the history and records of various individuals who have some 'claim to fame' and gives them a forthright answer. It is interesting reading and we'll bring you some of the letters in an early issue of SPARKS... so hang in there OM.

REFLECTIONS FROM AN EARLIER DAY

The following letter dated Feb. 25 1975 s/Viola Albrechtson, 130 Massachusetts Ave., Arlington, Mass. 02174 is quoted as back at the turn of the century, we find many 'Doubting Thomasas". Here is her letter:

Dear Mr. Breniman:

I found a note in the January issue of AARP News Bulletin about the Society of Wireless Pioneers. My father worked on the Marconi Wireless tower in Wellfleet, Cape Cod. I had a picture of it but can't find it so I must have given it away.

You may be interested in the opinion of an old ship's carpenter, who used to walk around the job - watching it's progress. He was about 70 years old then. He told Dad -- "This is the biggest humbug that ever came over the pike. Why, some day, some damned fool will stick a piece of copper wire in his hat and a battery in his pocket and tell everybody he meets that he's hearing the news of the world."

Dad's answer was: "Don't be surprised, if that should happen."

Dad lived long enough to see the plugged-in-radio but not the T.V., although, he predicted it. We already had the sound movies, so he always said. Some day somebody will find a way to join the movies and radio so it can be plugged into a living room" -30-

CHARLES H. BLAKE - 1885-SGP

One of our "SPARK-GAP" Pioneers, whose first assignment dates back to 1907 included a very interesting "Letter of Assignment" which he enclosed with his application papers. We are quoting it , as follows:

From: Marconi Wireless Telegraph Company of Canada, Ltd. Montreal, May 8th 1908.
C.H. Blake, Esq. Marconi Station, Cape Sable, N.S. (S.B.)

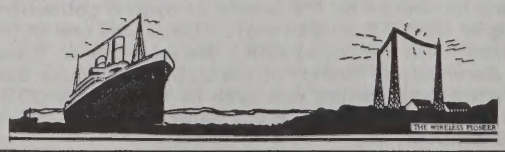
"Dear Sir:
Mr.F. E. Burrows has resigned our employ to take effect on June 30th.
We have pleasure informing you that it is our intention to have you take charge of the Cape Sable station. While you have only been a comparatively short time in our employ, we have watched your work carefully and it has been satisfactory. In offering you the charge of the Cape Sable station, we trust you will appreciate the confidence shown by us in your work, and that you will do your utmost to make the working of the station a success.
We have pleasure informing you that from June 1st., your salary will be at the rate of $40 per month, and if at the end of three months from that date you have demonstrated your ability to run the Cape cable station satisfactorily, we will see that you receive a further increase."

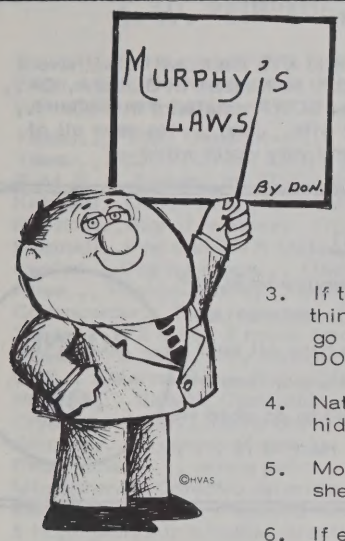
Charlie furnishes us with a roster of assignments at Cape Sable N.S., as follows:

The Wireless Station at Cape Sable N. S. was erected by the Marconi Wireless Telegraph Company of Canada in 1905. The following were some of the wireless operators stationed there between 1905 and 1910 when the writer left the company's service:

1906	Guy Ashley
1907	Harrison, Kerton, Charles H. Blake , Renauf, Craig, McNeil, Hillier, Stevenson., Spracklin.
1908	F.E. Burrowes (Joined the Co. from England 1905), Blackburn, Tufts, Bayer, Fennell, Sergus.
1909	Sam Currie, James Holmes, Joe Turcott, Cartier, Manson, Ryan, Webb, Lomas.

C.P. Edwards was our travelling repair man. He is now head of all Canadian Radio. The Station at Cape Sable was dismantled in or about the year 1920.





DICTUM

1. In any field of Scientific endeavor, anything that can go wrong, WILL GO WRONG.

2. Left to themselves, things always GO FROM BAD TO WORSE.

3. If there is a possibility of several things going wrong, the that will go wrong, is the one THAT WILL DO THE MOST DAMAGE.

4. Nature always sides with the hidden flaw.

5. Mother Nature is a bit## (well she's bad!)

6. If everything seems to be going well, you have obviously overlooked something.

Thanks to Don de Neuf for these words of wisdom.

The Cape Horn "Hurricane"

(Not to be confused with a wishy-washy/namby-pamby mixture served in the New Orleans Area called " The Hurricane").

Fill a water glass half full of hot water. Add a large tablespoon full of Nescafe or other brand of powdered coffee and stir well. Fill glass the rest of the way with 151 Don Q. Puerto Rico rum and again stir. Drink. If rum is not available, Russian Vodka or grain alcohol from the ship's medicine chest will do. Wood alcohol not recommended.

Suitable for rounding Cape Horn any time of the year, crossing Nantucket Shoal in the winter, making landfall on Bishops Rock in a fog with the radar broken down, or going to the Supermarket for the wife in rainy weather.

Submitted by

Paul "Heavy Weather" Szabo - 849-V

Paul Szabo is a transplanted "Great Laker" having launched his experience on the SS PERE MARQUETTE #17/WDC up on Lake Michigan in 1928. Since then the world has been his range. Of late he has been on the SS Sabine hauling oil from "North of Hatteras" and Guayanilla (Ponce P.R.) on the flagship of the Sabine Fleet. Says his tanker has a solid cargo of #2 heating oil and 240,000 bbls at 55 gals. to the bbl and selling at 40 cents per gallon - which makes it sound like a lot of $$$ to us.

Paul observes ... " Things are not like they were in the old days. We work about 90 days at a stretch, accrue 17 days vacation/paid leave each 30 days and what it amounts to is almost a five month vacation a year and on the payroll all year around. Ten days holidays on O/T each year, paid air-trans. to/from the ships, Sat/Sun and over 8 hours per day is OT. Long Island Duck and Leg of Lamb on the menu. And . . . this ought to make the woman's Lib happy. Last trip we signed on as "Crew Mess Attendent" a little (23 year old gal) from Mamou La., named "Audrey". She has "Z" papers (USCG issued) certifying and authorizing her to work as a 'Galley Attendent, O.S. (deck) and/or as a 'Wiper' in the Engine Room. She is doing a good job as Mess attendent. If some one had even thought of something like the above in 1935 (when I was going to sea, returning in 1969 after retiring from Radiomarine(*), it would have been a question of ... what he was drinking or smoking ?

(*) Paul was Mgr. at WSV Savannah, also Field Mgr. South Atlantic area RCA Hq. Jacksonville and Port Mgr Radiomarine Service at Tampa from 1935 to 1969.

Eulogy to an Oak

GILSON VANDER VEER WILLETS - 22-SGP

One of the Society's early Charter Members and our first Historian lay in the Palm Drive Hospital at Sebastopol, Calif., most of last summer where the medics gave him only a year to live due to illness diagnosed as Multiple Myeloma.

As he lay in bed looking at the beautiful oak tree outside his window, he wrote an Eulogy on some scrap paper which he threw away. His nurse rescued it from the waste bin and took it to the head office where the hospital employees were so pleased with the beautiful sentiments it expressed that they retyped and set it up in a brochure.

We are glad to report that "Radio Rex" is back home to his Russian River abode and so far has done much better than the medic's predictions. Rex is known to many as the founder of VWOA back circa 1925. He has had quite a career in electronics and communications which date back to 1913 when he went to sea on the SS EL ORIENTE/KKV.

Gilson has a 'way with words' that marks him apart. We will be glad to send copies of this "Eulogy to an Ancient Oak" to any who might like a copy. Please send mailing stamps (10¢). We will send, as long as our stock lasts. May we all say a prayer for this fine gentleman - also his wife who has been on the critical list for the past four or five months.

Shipmates Forever

THE LAST OF THE NAVY'S WOODEN SQUARE-RIGGER MEN

1797 1904

U. S. NAVAL EX. APPRENTICES ASSOCIATION
HARBOR OF NEW YORK

BY LAWS:
Loyality - Service - Common Sense - The Golden Rule and Dues

SHORTEST BY-LAWS ON RECORD.

We were quite intrigued recently by a letter from Dick Konter, Editor of "Trade Winds" for an organization called ... "The Last of the Navy's Wooden Square Rigger Men".

By-laws read:
LOYALITY-SERVICE-COMMON SENSE - THE GOLDEN RULE & DUES.

COMMUNICATIONS IN ALASKA

The following not confirmed by Jerry Whittaker P-6, who used to be Chief of Communications for CAA prior to retirement. The story reports that in some areas of Alaska, telephones have pictures of animals instead of numbers on the dials. Just call CARIBOU, WHALE, BEAVER, WOLF, MOOSE or BEAR -- and ask for Charlie.

(Probably in use North of the Yukon ?)

op sail newsletter

OPERATION SAIL '76, one of the most impressive events being organized in conjunction with the U.S. 1976 Bicentennial Celebrations, will bring 100 sail ships from many nations to the United States. They will visit many port cities on the East Coast, the Gulf States, the West Coast and the Great Lakes. July 4 1976 features a parade under full sail up the Hudson River to honor the 200 years of United States nationhood.

FRANK O. BRAYNARD who has furnished the Society with many stories about the sea, published in past issues of Ports O' Call, Sparks, etc., has been named as General Manager of Operation Sail (OPSAIL) '76. He is historian for tje South Street Seaport Museum in lower Manhattan, N.Y

He is also an expert on the world's greatest liner, the S. S. LEVIATHAN. Mr. Braynard is writing a series of books on the "Levi" (on which many SOWP members have sailed. To date two have been published and available. We have been able to read both of them and can recommend them to any steamship "buff" as being intensely interesting and well worth the investment. It is predicted that these books will become a true 'collector's item'.

Most of the sail ships which will visit the American Coasts will be equipped with radio. The Society is proud to report that our member - AMONRY H. "Bud" WAITE, Jr., 411-P, has been appointed Chairman and Net Control Station (in the ELMO PICKERILL CHAPTER to handle contacts with all ships under sail - coordinating with the USCG and their Cutter Eagle who will probably participate in the program.

There is speculation that the total sailing ships to visit our shores will be nearly double the figure first estimated. Our members will perform a great service in helping to participate in this worthy program. Station W2ZK of Bud Waite will handle necessary organization work. It might be noted that has participated in Arctic and sailed with Adm. Byrd to open Station "KFZ" in Little America circa 1933/34. He is indeed preeminently well qualified for the post.

1975 SOUTHWESTERN DIVISION

A.R.R.L. CONVENTION
Holiday Inn, Ventura, California

AN EVENT OF GREAT INTEREST to amateur members of SOWP is the coming SW. Division Convention of ARRL at VENTURA, CALIFORNIA Oct. 24-26 1975 in the Holiday Inn.

The Society has been invited to participate so John N. Elwood and his XYL "Edith" will 'man' a booth for the organization at the Convention. It is likely he will be assisted with others. Also we have some plans to organize a luncheon or dinner for SOWP members during the Convention. Details will have to be furnished at a later date.

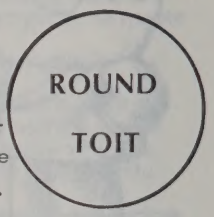
The thing to do right now is mark the date on your calendar so that you will not overlook it. Brochure and details can be secured from HAMCON, Inc., P.O. Box 5131, Ventura, CA., 93003. See you there ?

HAMFEST

John N. Elwood - W7GAQ/6 and XYL Edith will also have a booth for SOWP at the "LERC" HAMFEST in Burbank, CA., on May 17 (Sat.) 1975. You SOWP amateurs in SoCalif., come on up and meet or visit with John . He says all of these meetings are interest and very worth while.

THIS IS A ROUND TOIT

It is furnished as a special service to SOWP members who just may find occasional use for it. How is it used ? We have all said that there were a number of more or less important things that we intended to do when we got a ROUND TOIT . Here it is . . . so . . . GO TOIT !



S.O.W.P. 'EARLY BIRDS'

Left: Frank "FG" Geisel (Mr. "KPH") and at Right, Bill Breniman (Mr. S.O.W.P. (or Ye Ancient Marriner) Take your pick. Photograph taken by Joseph W. Bell -762-V at a Society reunion up near Napa in the "Wine Country" of California.

MIDNIGHT SAILING FROM CHICAGO

It was sailing time in Chicago - nearly midnight. It was foggy in fact is was so foggy you couldn't stand at the rail and see the dock. The Captain gave the order to cast off and they did. They sailed along all night, changing course three or four times.

In the morning when the sun came up and the fog burned off, they looked astern and there was Chicago. A quick check was made and found somebody forgot to cast off a stern line. (Do not let Great Lake Sailors read this item.) From W5QKU Oscar

A. W. "Bill" Filtness & VE 7 WZ

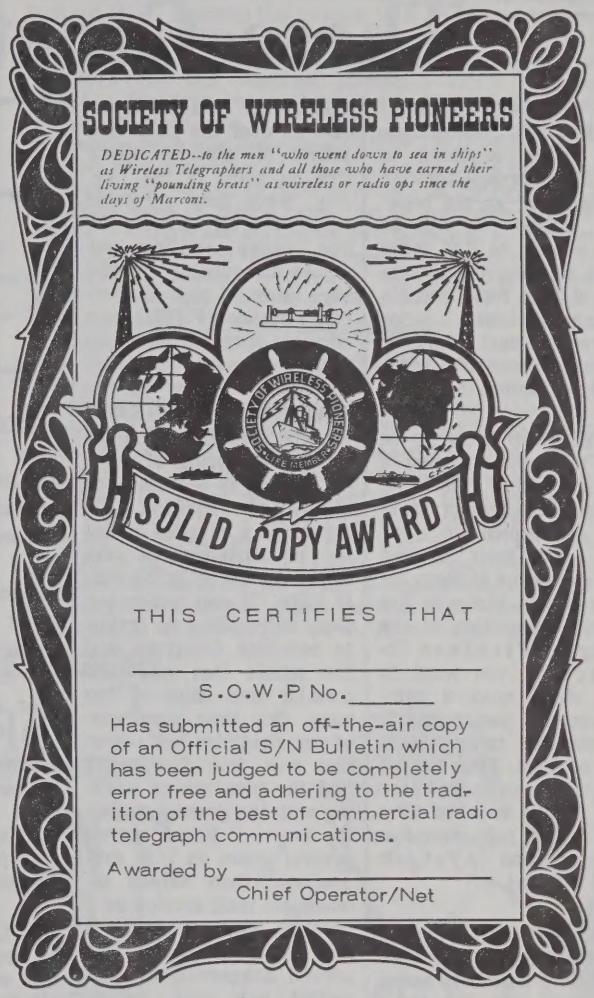
You will find a pix of "Bill Filtness - VE7WZ" Station on Page - 60. However space did not allow inclusion of statistics which are furnished on his rig, as follows:

Yaesu...FT200 Transceiver... 100 Watts CW.(Lower left)
Yaesu...FL2000 Linear Xmtr. 1000-W (Above FT200)
R.M.E... Preamp for FT200 Rcr. (Above FL2000)
Katsumi..Compreamp,for SSB..(Small unit alongside FL2M)
Heathkit..Signal monitor.. (right of Compreamp)
Heathkit..Pwr and SWR Meter, (above signal monitor)
Caslon...Digital clock... (left of Power Meter)
Ross... Walkie-talkie, Channel 11 only 100MW (R. of W.Mtr
Crowncorder.. Tape recorder..(right of walkie-talkie)
Yaesu...FT2 Auto, 2 meter transceiver, 1 or 10W.(under TR)
Yaesu..YC 355D..Fcy counter (beneath 2-mtr transceiver)
CDE.. Antenna Beam Rotor Ctl. (Under shelf, w/switch ctl.)
Heathkit.. 100Mhz Oscillator.. (front of control)
Crystal checker...home brew.. (right front of desk)
Ship key... (center of desk).
Radio Shack ... phone patch ...(left front of desk)
Microphone..Calectro dynamic (Center of desk-front).
Beat Oscillator for checking receiver fcys (left top of Preamp)
5 Huge plants in window, practically cover it

There you have it.

Ero's Forecast

The Weather Map we clipped from Ero Erickson's "Rain Static Sheet" we found quite interesting. Weather does play a big role in the lives of most radio men, hence most of us are at least amateur meteorologiests at heart. We know about the 'highs and the lows' as they swish around the country. We note from this weather map that it is snowing in the Rocky Mountain States - a bit of rain in the Pacific N.W. (Normal) Low over Nebraska with a front line down through Texas. The Wireless Pioneers seems to have moved into the deep South, centered perhaps over Mississippi and Tennassee. Perhaps to ward off the tornadoes. Anyway its clear at Chicago and Ero is enjoying nice WX for a change.



The 'Solid Copy' Award

These awards were suggested by Chief Operator, Bob Shrader W6BNB. Their purpose is to stimulate copying of our Net Bulletins - especially those who no longer have an amateur station, due perhaps to locations that will not permit installation of Xmtg Equitment, license lapse, etc. etc. There are many who would like to 'listen in' on net schedules and copy them to obtain news and for maintaining proficiency. This Award will be given those who submit copy which is judged "PERFECT COPY" as checked by the Chief Operator of each net for copy used on Net Schedule. Please send your copy to CHOP . . . NOT TO HQ. If it checks out, The CHOP of the net will mail your copy direct. This suggestion was furnished by "Bob" W6BNB some time ago. Unfortunately, we have been so QRL we havn't had time to get them out before now. Sorry Bob didn't get to use his own idea which we think is a good one. So now you know . . . have fun!

SCHEDULES APPEAR ON PAGE 60

Due to conditions (atmospherics, propagation of signals on various frequencies and due to similar circumstances, the schedules listed are subject to change. If you do not hear a net on schedule, write CHOP of net you wish to copy.

A LOOK INT O HISTORY

San Jose Mercury

April 22, 1975

These Great People

By GORDON GREB

DOES THE NAME Tom Swift mean anything to you? If you browse through the stacks of an old bookstore, maybe you will be lucky enough to find some novels relating the adventures of Tom Swift and his —flying machine . . . or underwater boat . . . or better yet, wonderful wireless transmitter.

BOYS WHO grew up on those tales and dreamed of leading exciting lives as inventors, explorers or travelers are grown up now. They are in their 70s and 80s. I met some of them recently in San Mateo at the national convention of the Society of Wireless Pioneers. If you want to learn about modern communications, just spend a few minutes talking with some of them. They helped make this "one world" possible, thanks to what they did with that instantaneous communication system called wireless.

RICHARD GERMAN, 86, is a bright-eyed old gentleman who remembers being in London when the news came out that Marconi had invented a way of sending messages through the air without wires. He saw the system demonstrated in 1897. Now living at Half Moon Bay, he is an Englishman who became a wireless operator for a British company in 1908. "In those days," he recalled, "there were no more than 100 ships in the Atlantic which were equipped with wireless. I know that for a fact because I had to memorize the calls of every ship and that's how many I knew."

RAY NEWBY, 82, who lives in Stockton, became a "sparks" aboard his first vessel in 1910. That was the S.S. Atlas. It also was after he had helped "Doc" C.D. Herrold put the world's first broadcasting station on the air in San Jose in 1909. "Did we have an audience? I'll say we did. There were amateur operators all over the place and plenty of wireless operators on ships in the bay. Boy, were they surprised when the Herrold radio station began sending out voices and music!" Newby says he could pick up Herrold's station (FNFN) as a wireless operator 200 miles at sea.

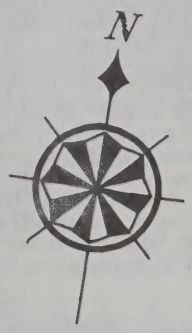
WILLARD N. EDSON, 73, who flew from Chicago for the gathering of radio old timers, is a pioneer of airborne wireless. He served as a wireless operator on dirigibles of the Army Air Corps in the early 1920s. "I can remember Gen. Billy Mitchell trying to convince Congress and the public that airplanes could sink ships of the navy. One time when one of our dirigibles lost power and was free floating, I had the pleasure of working with the general during the search." Edson served several years on U.S. submarines, then helped pioneer air mail service as a wireless operator. Asked if any of this work had proved dangerous, he just smiled and said, "Well, I'm still here."

The OTHER PAGE

LEE FASSETT, 80, who lives in San Anselmo, got his first job as a wireless operator in 1913. It was aboard the S.S. Oleum. He liked it so much that he joined the U.S. Navy and spent four years steaming through hostile waters of the Atlantic during World War I. Although he traveled 82,000 miles through submarine-infested waters, he never once sent a distress signal. Nor did he ever receive one. "Guess I was just plain lucky," he laughed.

WILLIAM BRENIMAN 75, says he became a wireless enthusiast because of all the excitement generated by the sinking of the "Titanic" in 1912. Although there was a great loss of life, few would have been rescued without the heroic effort of the wireless operators — the "sparks" aboard the sinking ship, the others who heard the SOS call and responded. Breniman served in the USN in World War I and helped organize the Society of Wireless Pioneers in 1968. Today the organization has nearly 2,000 members — 50 of them veterans of wireless service before World War I.

ISN'T IT about time somebody made a movie about these great people? It would start with Robert Redford in the role of Tom Swift, shouting into his microphone, "Hello, Mr. and Mrs. America and all the ships at sea. Let's go to press."

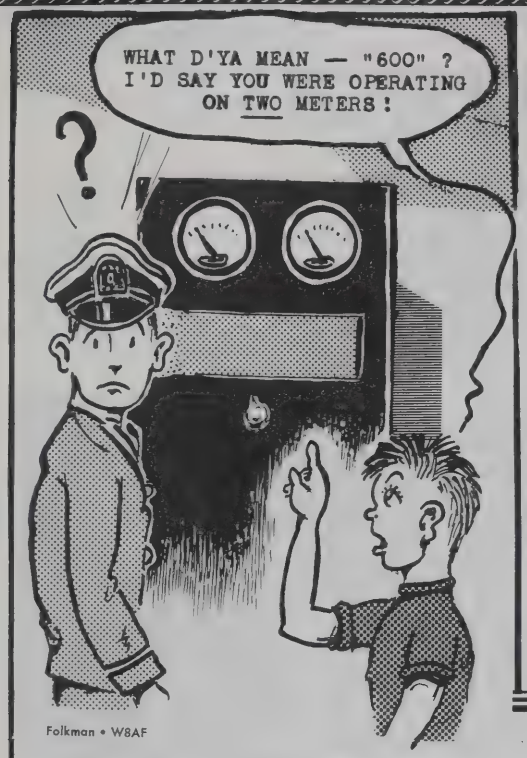


Golden Gate Chapter Reunion

THANKS TO GORDON GREB of the San Jose Mercury for 'taking a look' at the Wireless Pioneers and giving the Society and some of its members a write-up in his paper.

We have hardly scratched the surface in recording and reporting the episodes and experiences of members of the craft -- many of whom could write some "Stranger than Fiction" accounts of their adventures - wandering about the world on everything from tug boats to palatial liners.

The meeting at the Villa Chartier in San Mateo was a very enjoyable occasion for those attending. Those who took a rain check didn't know what they missed. Chapter Director, Fred Mangelsdorf did a fine organizational job. The Villa backed him up with fine food and good service. Prexy Cady backed us all up with his infectious fellowship. We were glad we went ! We had a wonderful Time ! So lets resolve to make next year's reunion even bigger and better than ever. We need YOU to help !



THE YOUNG PASSENGER WHO JUST GOT HIS NOVICE LICENSE.

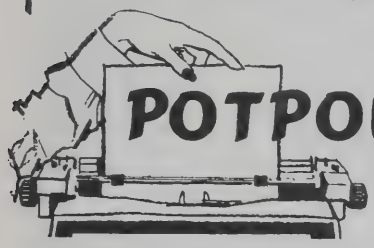
JUST GOT THROUGH READING 600 METERS



POTPOURRI....

● JOHN A PEEL - W7LT - Area Representative for the Portland, Oregon Section of JACK BINNS CHAPTER reports a "get-together" of members in the Portland area on April 4th. Members attending included Oscar Anderson W7WH, Dexter Bartlett, George Bates, John Gates W7FQE, John Peel W7LT, Ralph Norgard W7QY, Geo. Redfern W7AWU Bob Wright W7IE, Ed Lamb W7HJU and Fred Noon. Visitors included Tom Haygarth(*) Bob Tomilson, Ken. Wilcox and Ralph Woodford (*) Enjoyable time had by all. (*) Joined since the meeting. ●. Regret to note the passing of Mary Hallock, XYL of member Joseph who himself has been having a rough time. ● GEORGE W. AHRENS ~274-V 3216 Town= send St., Dallas, TX. 75229 has offered or volunteered to try and get a Chapter going in the area. He thinks perhaps in area of Okla, Ark, Texas and Lousiana that there would be sufficient interested members to join a chapter, at least he is willing to give it a try. Idea would be to have a meeting first of 'locals' in Dallas/Ft. Worth, Luncheon meeting, see if they can get a 75 meter net going, get a mailing out to all in area to stimulate a meeting at Texhoma in Oct. ● STEPHEN GASPAROVITCH - 921-P, Orlando, Fla., sent us a brochure of the "School of Radio Telegraphy" - 1920, YMCA Bldg., Detroit, Mich. Pix of one 'war-time' class showes nearly a hundred students learning code. Steve says..."This is the school where I learned "Wireless". (Welcome Memorabilia for our library). ● GEORGE E. STERLING says glad to see August E. "Bud" Eckels of Baltimore sign up (1867-P). Sez Bud RJ'd him on KUQQ when he went RI for Marconi. Says he is leaving Sarasota for Maine April 8th with stops along the way. ● G.I. Parker (non-member) 66 Gaspee Point Dr., Warwick, RI.02888 says he used to "fly the hump" from Lima Peru to B.A. holding the oxygen tube in his mouth and other hand on key for Pan-Agra years ago. Also three ATW trips on the Pres. Adams plus Pres. Wilson and Harrison. Wonder if he would meet old 'buddies' joining SOWP ? He hasn't joined yet. Any know him might drop a line. He has application forms. ● Nice note from Cmdr. E.J."Jay" QUINBY enclosing some help and reference to P/R (Bill Willmot's shop). Jay has met a number of old Cronies he says through SOWP Publications, which is nice to know. ● HARRY J. UNGER 968-SGP asks if Berne Lists can be purchased in the United States ? I think we answered this question (yes) some time ago but can not find reference now. Anyway with info please inform Harry whose QTH 2102 E. Mulberry St. Phoenix, AZ. 85016. Send us copy for our records. T.U. ● One of our new members , KENNETH J. TAYLOR - 1906-PA volunteers or help in starting a Chapter in the Toronto, Hamilton or if we feasible. Member ART STARK VE3ZS feels that the time is right and also suggests a NET in the area might be a good idea. He is willing to lend support so members in the area might get behind Ken. His QTH is 3285 Queen Frederica Drive, Mississauga, Ontario, Canada L4Y 2Z9. ● Card from GEORGE R. JOHNSON 499-P datemarked ARUBA, says he and XYL Aileen are having a wonderful time on their cruise trip. Day temp 81° - swim in warm ocean today. Curacao TMW 8AM... (Oregon was never like this ?) ● The S.S. PIONEER CONTENDER of the U.S. Lines loaded 16,600 (sixteen thousand six hundred) refugees March 27 1975 at Da Nang. This is the largest number of refugees ever carried on a ship of this kind. Ships built for cargo only.

STATION WSC
Transmitter and Receiver Building - Aug. 8 1974

FRED GERKEN, Station Manager WSC

Photo by WB2BCY

A DAY AT "W S C"

Last Summer when it appeared that Marine Radio Station - "WSC" was going to close down any day, the trio of Irving Smith WB2BCY (official photographer for the party), Wm.B. "Bill" Gould K2NP, and Earl W. Korf - K2IC drove down to West Creek N.J. to get some pictures of the station. Those printed here are part of the collection but shows buildings etc as they appear. Chief Fred Gerken reported that they were still handling considerable traffic. It was noted by Earl that most of equipment was WW-2 gear. (It is not known if the station is still operating or not at this time).

Several of the Station's personnel that our trio met, besides Manager Fred Gerken, included Walt Parker, clerk, Daniel Flomerlet (W2BFV) John Dale Technician.

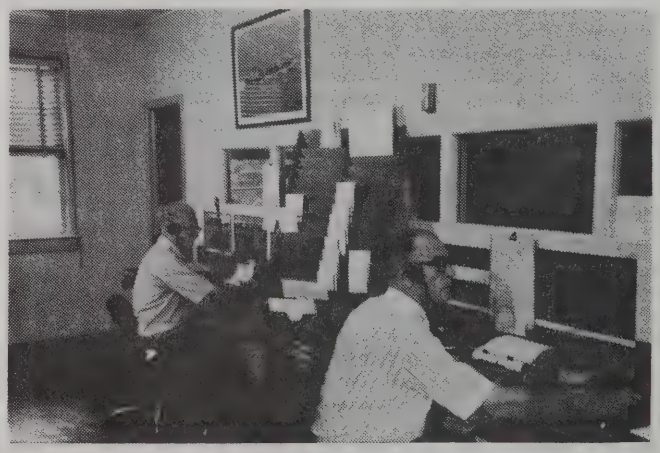
(Thanks to Irv. Smith (Gould and Korf) for pictures)

YL MARINE WIRELESS OPERATORS

We have received three or four letters from members about the Story - "SEA INTERLUDE" (Page - 63, SPARKS III) telling us that Anne L. Smalley WAS NOT the first YL Marine Operator. I am sure we did not so indicate in the story as we plan to bring a story about the YL MARINE OPERATORS in an early issue of Sparks. SOWP Member Karl Baarslag (175-P) in his book - SOS TO THE RESCUE" (Published 1935 by Oxford Press)lists quite a number "Lady" Operators.

Distinction as the first American Marine Operator goes to Miss Graynella Packer, a girl from Florida who was assigned the SS MOHAWK on Nov. 29 1910 before leaving the sea four months later in favor of a career in music. The first woman wireless operator of record was Miss Anna Nevins who took over a regular watch at Station "NY" in 1906. Later she took a watch at Station "WA" atop the Waldorf-Astoria. She retired in 1910 after four years of wireless experience.

We have documentation on the experience of many women who have operated on ships and ashore. Some of them even sent SOS calls, such as recorded by Miss Lena Michelson in 1918 when the Tanker Tamesi grounded on the Coast of Texas in a dense fog. **More on this in a future issue of SPARK.** -30-



Two SOWP'ers keeping their 'hand in'
Bill Gould - 565-V (Left), Earl W. Korf 613-P (R)

SOWP Members visit

Earth Satellite Station

on Vancouver Island

1 & 2 - Members Victoria SW Radio Club. 3. Sid Woods, DOT, Ottawa; 4-Bill Corsen, Chapter IV, 5. Charlie Rose, Victoria, 6. A.W."Bill" Fitlness - Canadian Director SOWP, 7. Sid Young, SOWP, Chapter XVI, Victoria, 8. Dudley Hatch, Chap. VI, Vcr., 9. Duncan McKenzie, Chap. XVI Victoria. 10. Nelson Smith, Chap. XVI, Victoria, 11. Larry Rossiter, Chapter XVI, Victoria.

Excuse is given that the " Vancouver Island Dew" (we call it fog) did inhibit attendance up to Lake Cowichan to see the Earth Satellite Station programmed by the Gonzales Chapter (XVI) -- it also had the same effect on pictures taken.

However, this is a good example of the frequent ' get-to-gethers' of our Canadian Chapters. Canadian Director Bill Filtness, flanked by Marconi stalwarts Bill Corson and Dudley Hatcher crossed over by ferry and met the Victoria group at the Village Queen Inn at Duncan. There, after a business meeting the group proceeded about 20 miles inland from Duncan to the station which is located in quite a mountainous area, where they w ere met by Mr. Mercer and staff of the Earth Satellite Station. The group was given a 'run-dowr on the services provided by the Canadian Overseas Telecommunications Corpn. Satellite Earth Station. Traffic is handled across the Pacific to Hong Kong, Australia, Japan, the Phillipines, New Zealand, mainland China (Peking) and eventually to Singapore via the Pacific Satellite, such as phototelegraphs, high fidelity radio programs, color and mono chrome telecasts, and standard 4 Khz voice telephoney.

Tour of the equipment room/s, said by Bill Filtness to be . . "a service man's dream" was full of very sophisticated looking equipment - looking back at "brass-pounding" days. No dots and dashes could be heard but silent racks of equipment and console for monitoring and the alarm systems. The No-break Power system caught the eye and fancy of Nelson Smith - a standby battery of Leclanche cells to take over and drive the main generator temporarily until the alternating prime move, the Diesel Engine, ran up to speed with proper phasing at which time the D. C. supply from the battery cut out and the Diesel Engineer took charge of main generator to supply the A. C. supply to the station until the Hydro power restored.

Also intriguing were the antennae systems with the huge disc and elevator running up the mainstructure to a platform housing the control room where the phasing and tilt of the antennae to the Satellite could be monitored and the tracking done manually in case of emergency. Apparently icing is a problem in the winter time and currents have to be applied through cables to de-ice. The power is not very high but beamed via the reflectors on the Disc to the Satellite Transponder about twenty thousand miles up in space. Bill Filtness mentions that three transmitting Klystrons costing $14,000 each are used in the parametric amplifier and amplified with a "T.W.T.(Transmitting Wave Tube) super-cooled to 420 degrees below zero with Helium gas, which in turn is connected with the front cone.

SRI but Ye Ed got lost along about Klystron No. 1 and the video camera on the roof which monitors the entrance gate and monitors same. Between the West Canada Chapter VI and Gonzales XVI, the fellows have a real "GET-TOGETHER" idea going - and they all seem to enjoy it Anyway thanks to Nelson and Bill for 'clewing' us in. Sometime, we'll try to join you on one of these interesting safaries.

MAY 17 1975

L.E.R.C. Amateur Radio Club W6LS "HAMFEST" Saturday & Sunday May 17/18th 1975. 2814 Empire Ave., Burbank, CA. 91504. Donation $2 per ticket. John N. Elwood will have a booth for S.O.W.P. at this "Hamfest" Come and meet John and XYL Edith.

MAY 31 1975

deForest Chapter III
PLACE: Brotherton's Cafe, 2239 East Colo. Blvd. PASADENA
TIME: 10A-3P. TAB: $4.00 each. Reservations needed. Contact, Judge James H. Brown, 1802 Redesdale Ave., LAX. 90026. This should be a fine 'reunion'. No formal program -- just time for a real eye-ball QSO of the OT's. Visiting SWOP'ers are welcome.

AUGUST 9 1975

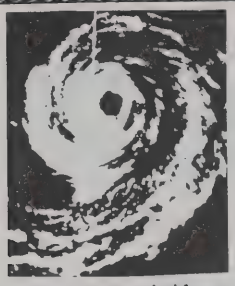
CHAPTER IV
(Details will be mailed in July. Inquiries to Brandy Wentworth 460 Oak St., Laguna Beach, CA. 92651. Phone: 714/497-1437. K6UJ.

AUGUST 22 1975

PICNIC... Flagship Section, Golden Gate Chapter. Place: Armstrong Redwood State Park near Guer neville, Calif. Ground fee (about $1.00 per car). 11AM - 3.30PM. Ideal setting among the Giant Redwoods. It always draws a fine crowd.

Regretfully, most of the Spring meetings have been held and as we go to press - we do not have Summer or Fall schedules.

W.A.B.



Hurricane photographed from radar.

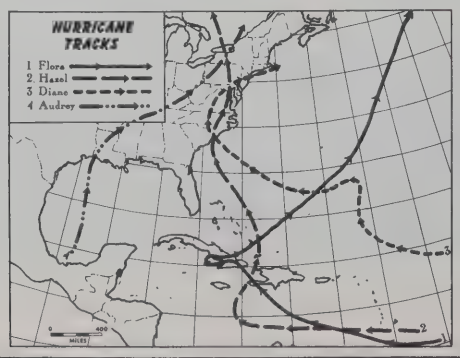
Meet "Bill" Willmot

He Tracks Hurricanes

Sattelite photograph of a hurricane.

At Work

MARK TWAIN once remarked ..." Everyone talks about the Weather but no one does anything about it. Here is Bill Willmot doing something about it. He is charting movements of hurricanes at the NASA CONTROL CENTER . His official title is Disaster Control Officer. One of the major duties each year between June 1 and Nov. 30th is the(Turn top right)



tracking of hurricanes and other tropical stormes. When a hurricane or tropical disturbance threatens the area, the Center if manned around the clock until the all clear. Photo Credit National Aeronautics and Space Administration.

Bill's avocation and hobby is Amateur Radio and he is the Vice President of the Society's Promotion and Public Relations.

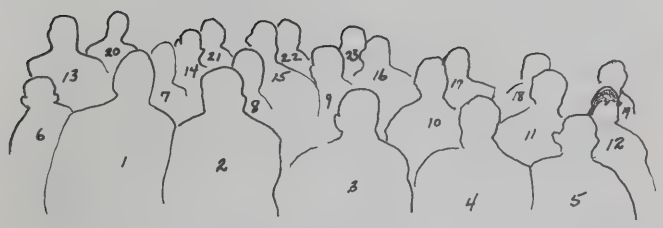
During WW-2, Bill served in the Signal Corps as a CW Operator, spending much time in the South Pacific at such exotic (?) places as Hollandia, Philippines at Panoan, Leyte, Mindano Mindoro and later in Japan stationed at Matsuyama, Shikoku Island with the 24th Signal Company.

The Society counts among its blessings, the dedicated interest Bill devotes to promotion of the Society and its interests. He organized the Thomas A. Edison Chapter in Florida, formation of the Florida Net and more recently has spread the word about the Society far and wide in media of this country and abroad.

A **big vote of thanks** from all SOWP'ers to Bill (and XYL **Florence for allowing** him time to devote to our projects).

Amateur Station - K4JPF

'Get-together' at Canandaigua, NY.



1. Thorn L.Mayes (W6AX), 2. Ed. Reddington (W4ZM), 3. A.C,Jacoby(W3OY), 4. "Linc" Cundal (W2QY), 5. L.A. Riegler (W8DNC), 6. "Stu" Davis (W2ZH), 7. Ed. Raser - (W2ZI, 8. Andy Shafer -W8TE(Also Prexy OOTC); 9."Bud" Waite - W2ZK, 10. Al. "Al" Krones - W9CM, 11. W.C. Gross - W8BKM, 12. Lou Mareau - W3WRE, 13. Warren Green - W7JY, 14. "Bud" Fischer - WA2QGV, 15. "Bob" Morris - W2LV, 16. Max Jacobson - W3DUG, 17. Bruce Kelley - W2ICE, 18. "Chuck" Brelsford - K2WW, 19. "Al" Crumm - W2BKW, 20. Morgan McMahon, 21. Pete Schroeder. 22. Art Goodnow - W1DM. 22.Bill Gould K2NP.

SOWP members attending the Annual Historical Radio Conference and Pioneer meeting of the ANTIQUE WIRELESS ASSN. at the Sheraton Inn located on beautiful Lake Canandaigua, NY., Oct. 3/5th last met in the Director's Room for an 'eye-ball' QSO . A short program arranged by Thorn Mayes was of unusual interest. It was a playback of two simulated Spark-transmitters.

The convention put on by "A.W.A. was well attended and thanks to President "Chuck" Brelsford, Bruce Kelley, "Linc" Cundall and other hard-working members, it was quite a fine meeting.

We always enjoy these AWA "get-togethers". Sorry to miss the one this year at Foothill College in Menlo Park. However, SOWP Prexy took Bruce Kelley for a very enjoyable visit to his old station . . . "KFS". Thanks to Chief Brundage, they received "Red Carpet" service. Lots of pix and a 'look-see' at everything. (You will probably see some of them shortly in "The Old Timer's Bulletin" a FB publication edited by Bruce Kelley who does a wonderful job for A. W. A.

Bruce reports that one of AWA's projects, the Academy Museum in East Bloomfield N.Y. is coming along fine.

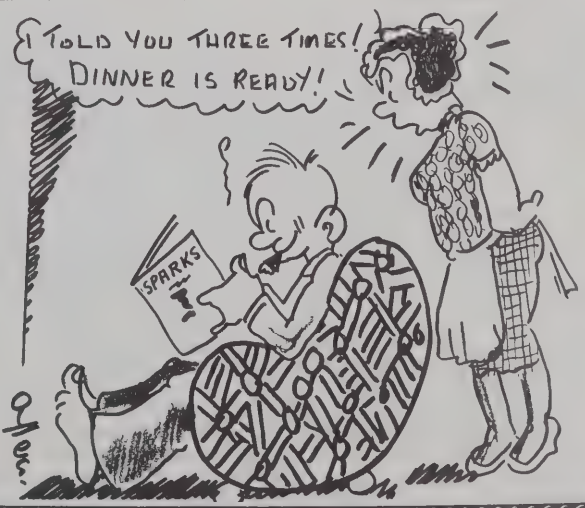
Received the following from new member LESLIE L. FUNSTON - WA6HJL QTH: SF.CA. (He furnished cartoon at right). (Also letter below)

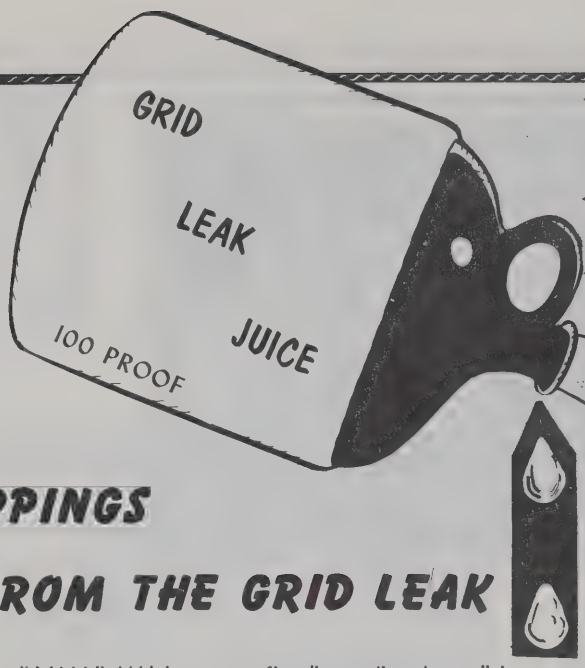
"Dear OM:
The book SPARKS III arrived and I readit with great interest.

Perhaps I read it too long and too intently... I got interested in the book and missed my dinner after four calls from the XYL. I missed three of my favorite TV shows that evening, I forgot to take the poodle out for his evening walk and in addition, I forgot a 'sked' on 80 meter ham band ! ! !

I was amazed in finding some of the names of old timers that I knew or had worked with like... Henry Dickow as mentioned on Page 38 ... Yea Gawds ! I worked for him as an artist and cartoonist in his venture in the magazine game many many years ago."

("Les" had quite a career in Navy Radio starting circa 1932 at NRS - NPG, many ships , SoPac. East Indies, etc., and a stint at NAA, NSS etc. Glad to have you aboard OM.





DRIPPINGS

FROM THE GRID LEAK

JOHN C. "Mill" HILL says after "pounding-brass" in the Navy at NPG, getting his first license 1920 from Bernard Linden and then 36 years of telegraphing for Associated Oil, he became so "dumb" in radio theory he decided to 'try for a Novice' instead of a General. Station WN6IXG has brought much pleasure he says - met a bunch of fine ops in the same class and had a fine time. QTH is Pacific Grove, CA. ◉ RAY ANDERSON W8JX, 988-P suggests that we issue a few labels to members to be attached items (Memorabilia) reading something like this: " SEND TO: SOWP Museum, P.O. Box 530, Santa Rosa, CA. 95402" ... so that relatives will know what to do with the 'junque'. Like I have a gold-plated key on marble base, a Wm B. Duck catalogue, etc., which somehow survived getting thrown out during WW-2.Also the best side-swiper ever made, obtained from the old Rose Radio Co., WNU in 1922. (Perhaps we'll have some printed up). Good idea). ◉ C.P. "Jeff" PIZER, 1527-V, ZS-1-AH sends us a clipping from the Daily Argus published at Cape Town, South Africa written by Gerry Wood proposing a "TAVERN OF THE SEAS" Chapter. Happy to report it has attracted a number of members and while not large, we do have a Chapter on the African continent. FB. ◉ DONALD P. NEWMAN 58-V new QTH Seattle, WA. Says he now feels ten feet taller and 10 years younger. Had to resign as Director of the GG Chapter due to move. Now lives on North end of Lake Washn. with an unobstructed view of the Lake and Cascades ! Keeps somewhat busy with sub-contract work. Sends 'cheers' to all. ◉ BYONG-JOO CHO 1243-PA HM5AP reports he is now assigned the M/V GERANIUM/SMYZ at Niigata, Japan. She is a 18,000 bulk log carrier. Cho was formerly on the M/V MIDAS APOLLO/6ZLV. Sends 73 to staff and members. ◉ FRED R. REED, SR. 1359-V (K4MNJ) sends new QTH from Wildwood, Fla. (R-1, Box 358-A). Says new tower about ready to go skyward and hopes to be more active on 20 CW soon. ◉ ELMER OSTERHOUDT 203-P new QTH Garden Grove, Calif., report offers to buy their "Modern Radio Labs" but how to keep busy ? Besides the Reno Bunch who call XYL Mabel and Elmer "Jackpot Annie and the OJ Kid" say it just might 'break their bank' if they come too often if they are out of work. Says "Sparks is tops -- full of meat" and sends a little "Pogy Bait" along to prove it. ◉ BREN. QUEREAU, PA-717, Boulder, Colorado says KFS really booms in at night. Listens in to the Coast stations all the time. All goes well. Says he sure misses the stories that Ray Green used to tell ! Have patience OM - they'll be some more in coming issues of SPARKS. ◉ CALCULATOR FUN ... This is calculated to keep you in suspense. If you have a pocket calculator, humor your old SOWP buddy and play this silly game: Punch 142 for the number of Israeli soldiers. Now punch 154 for the number of Arabs. Don't add or subtract or anything, just make a continuous number. Now punch 69 for the length of the battle-front. Now hit the times sign (x) and a five for the Five Day War. Push the equal button (=), Now turn the computer upside down and see who won. (No we won't give you a free tank of gas for your answer). ◉ Al GRAY - 810-V (Brooksville, Maine) says he still holds a valid First Class R/T Operators License with an Aircraft R/T endorsement -- a hold-over from his "Clipper Days". Says he suspects that this combination may be becoming a bit rare. Anyone have any idea of these licenses still outstanding ? ◉ DON JENKINS 1149-V (WB6PGK) from Morro Bay, Calif., says that SS UNITED STATES maintained an average speed of 35.59k in winning the Blue Blue Riband from the S.S. Queen Mary making the crossing in 3 days 10 hours 40 minutes. (Note: Don't think this speed was claimed on this crossing but the U.S. Government revealed she was capable of 42 plus knots per hr. a record censored to time of its release). ◉ E. JAY QUINBY sends us "MXHNY" from the SS ROTTERDAM (PJSU) back a few months - Dec. 24th to be exact. Says PJSU is "quite a ship !" Says he wishes CHOP would let him have a 'crack' at the PJSU's key to he could get off some traffic of his own. Says the ship if a very fine modern steamship, cruise speed 21 knots, takes the sea very smoothly even with 12 foot waves however gets hopelessly lost in her eleven decks served by "do it yourself" elevators. ◉ The Doc. was having trouble diagnosing Sparks illness. "Have you had this before?" he asked. "Yes, twice."... "Ah-ah! Well, I hate to tell you this, but you've got it again". ◉ GEORGE C. WILKINS, Sr., 1110-P (KH6EWA) says that due to listing in SPARKS III he received a long letter from an old friend whom he had not seen or heard from in 27 years ... W.J.C.Fahey (W7NWM)...all goes to confirm SOWP as the "Get-together" Society. ◉ Our good Canadian member Z.L. "Wenkstern" ... Wenk for short also expresses thanks and gratitude - says through he has been able to gain new contacts with several old friends. Invites any SOWP'ers driving along Canada One - Fraser Highway to drop in for a visit. Wenk lives about 1 mile East. However suggests give him a call from Langley (534-9879) as a bit hard to locate. Went will come in and pilot you out. ◉ Mike Lamson 1120-P sends greetings to all SOWP'ers from the "rock-ribbed" coast of Maine. Happy to see Ed Wylie join as a members - also to have Eunice and Ken Thompson as "boosters" in the Society's stable (Hay, thet's Kentucky !) ◉ Note from Floyd J. Bird 1327-P (W6EXE) late fall says he is still on the Keystone Tanker Santa Clara, on San Fran. Long Beach, Honolulu and Alaska run. Had nice 'ragchew' with Old Man Helfer in Long Beach. May get off his bucket in Feb. Liked Sparks III. ◉ "AL" Fisher sent us a delayed Christmas Card (quite delayed in fact, even slower than the P.O. D's "Slow Turtles"... Date was 1937. It was from TRT's station at Hingham, Mass. Listed on the card sending MXHNY greetings included: R. Heapes(CZ) L.B.Thomas (LS) S.F. Wade (WB) G. Imlach (WI), C.B.Rogers (MJ), L.W. Eldridge (LW), J.L.Pelkey (LH), R.J.Larner (NV), G.S. Groster (RO), G.L.Mulvey (GM), A.B.Fisher (FS) Chief. Elec. H.F.Hill (F); J.F. Cameron (CG), L.M.Hilles (SJ) L.F.Wolfe (WF) and R.S.Hood, Supt. Calls list WBF, WBJ WBO, WBQ, WBV, WBW, WBY and WCE... That was nearly 40 years ago. Wonder where they all are now ? ◉ If any of you readers have noted lack of continuity, lapses etc., I might advise that Ye Ed decided to see a psychiatrist a few days ago to check on lapses of memory. What did he say ? "He told me... I would have to pay my bill in advance." ◉ Letter from Earl C. Baker, REO SS Transcolorado/KOEW at Pusan, Korea. Earl says his mail bounces all over the Pacific but now and then it catches up. No 'big deal' but he says PUSAN has been changed to BUSAN). Reports quite a 'bout' with Typhoon Elaine in the South China Sea, early Nov. The T/C lost ! One of the radars knocked out and lost the top section of vertical ham antenna which was all. ◉ Bill Jarboe, Jr. 678-P who has thrown out his anchor in Rogers, Arkansas says the way price control works there and with a few words of wisdom as follows: "Keep thee tranquil, my friends, despite thy harrassment by those who control the price of steak by flipping a coin (heads we raise the price per pound, tails, we raise the price of the whole durned cow, and if it stands on edge, we'll delay the raise till tomorrow). -30-

SALTWATER BOOKSHELF

NEW BOOKS

A FLICK OF THE SWITCH

Morgan E. McMahon, Editor. Vintage Radio, Box 2045 Palos Verdes Pnsla., CA. 90274. $9.95 deluxe hard-cover, $6.95 handbook.

We have just received a copy of "A FLICK OF THE SWITCH" from our Technical Associate (26-TA) Morgan McMahon, (copy donated to SOWP Library which is accepted with thanks.). This book covers, in depth, RADIO BROADCASTING from approximately 1930 to 1950, including the early days of TV. The "early day" equipment various manufacturers furnished, plus the passing parade of those who appeared on programs such as The Lone Ranger, Kukla, Fran and Olie, Will Rogers -- they are all mentioned. It is a journey back into nostalgia and history of these years. Mention is also given to Amateur Radio, with equipment used, WW-2 Electronics, Even the 'Radioman' receives some attention in Chapter VI with mention of Society member Amory "Bud" Waite (Adm. Byrd's radio man on his Antarctic expeditions.

Nice mention is given the Society where Morgan says . . . "The roster of the Society of Wireless Pioneers is replete with the names of the men who led illustrious careers as radiomen, and those who moved on to conquer other worlds. (Page - 291).

The book is well researched and written and we think it is an excellent value for the price. It includes pictures of over a thousand sets manufactured during the period, most of which are now 'collector's items'. You will probably read and re-read this book. We recommend it. Copies can be ordered direct from McMahon at address shown above. Perhaps he will autograph your copy if requested. The Society appreciates mention on the "Acknowledgement Page 6" that Morgan has included.

S. S. LEVIATHAN

WORLD'S GREATEST SHIP VOL.1 & 2

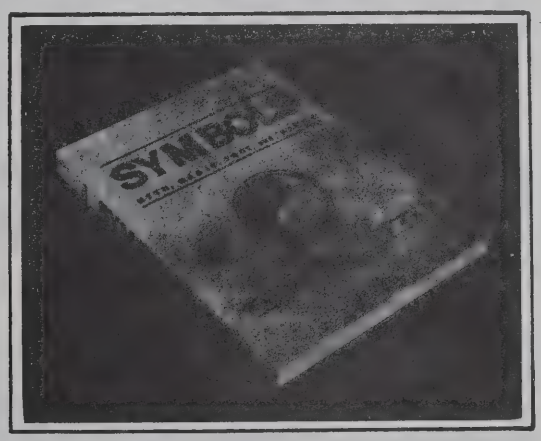
"THE STORY OF THE LEVIATHAN" VOL. 2

Frank O. Braynard, Author. Price $25.00. Book may be ordered through Mr. Braynard (who may autograph). 98 DuBois Ave., Sea Cliffs, N.Y. 11579.

The Society is in receipt of Vol. 2 of Frank's outstanding book on the SS Leviathan, which was in her day, America's Largest Ship. Many of the Society's members sailed on her including Charlie Maass who is Director of the Elmo Pickerill Chapter. "Pick" incidentally was CHOP on the "Levi" for many years (call WSN and later WSBN). A number of our members assigned included Ray Green -(395-SPG) and Tony Tamburino - (460-SGP). Included in more than 70-pages of photographs are pictures of the radio room, its equipment and operators.

The large-volume format is a beautiful book and a tribute to the Printer's Art as well as to the Author's profound knowledge of his subject, told in an absorbing manner.

While the price seems a bit high perhaps, it is a good buy in these days, in fact priced below some books of similar make-up. The nautical-buff will find hours of pleasure in reading and owning this great book. Incidentally, Frank has furnished the Society a number of articles which have been published in our various books. We highly recommend both Chapter one and the new book just released.



SYMBOLS
Fred Rosebury, Editor (SOWP 1570-P)
133 Natick, Mass. 01760. Price $7.50
Ppd in USA. (Limited & Numbered First Edition. Author will sell direct. See right.

SYMBOLS

This is really an unusual book. It is not a dictionary, encyclopedia or textbook but combines a useful, valuable and sometimes diverting, but mostly serious reference source of pictorial symbols with sprightly commentary. It is a big book, 8-1/2 x 11 inches and about an inch thick.

Two chapters we find most interesting are No. 15 (Mostly) VISUAL COMMUNICATIONS which includes Morse International Code, Semaphore, etc. Chapter 16 deals with Symbols of Deep Water, ship markings etc. You will even find "Sparkie" Hippokampos (see P-4 this Newsletter) listed on Page 312. You will find the Myth, Magic, Fact & Fancy of Symbols well covered and written in a non-pedantic style which makes for a highly interesting and fluent book. Fred has worked this up on a non-commercial basis. Most books of this type would cost twice the money or more so we think it a very fine value. Congrats to member Fred. By the way, Fred's first assignment was in 1920 on the S.S. IMPEROYAL/VGM. He had early amateur station 2CBO in 1922. (Member Rosebury has furnished the Society with a Numbered autographed copy for our library, for which we acknowledge and thank him very much).

CHAPTER NEWS

GOLDEN GATE CHAPTER - I

Former Chapter Director, DONALD P. NEWMAN 58-V resigned last fall due to his move from S. F. to Seattle. Charter Member Fred B. Mangelsdorf (P-7) was prevailed upon to take over until the Chapters next business meeting. He made the arrangements and handled the Chapters Annual Cruise Luncheon at the Villa Chartier on April 19, 1975. A very fine meeting it was too, with some hundred members and guests attending. The food was good, service excellent and to top it off Thorn Mayes put on a program (Trip of the Queen Mary narrated by Bruce Kelley) that was very enjoyable. All felt Fred did a bang-up job on rather short notice. Unfortunately Fred went in to dry-dock for a needed operation the Monday following (few knew of it at the luncheon).

Fred is studying a suggestion proposing several area meetings each year so members will not have so far to drive or traffic to buck. The annual reunion at a central point will probably be retained. Next event due is Picnic at Armstrong Redwood State Park, Aug. 22, 1975. State fee to enter park is about a dollar per car. Bring your own picnic lunch, etc.

One of the important events of the year was the REDEDICATION by Golden Gate Chapter members of the Marconi Memorial on the North slope of Telegraph Hill. Heavy rains several years ago eroded the memorial's foundation support. Leading the ceremonies were President Eben K. Cady, Director Wm. A. "Bill" Breniman and Mario Spagna (program organizer). The event was televised on two channels and newspapers gave it good coverage. The monument was initially dedicated Sept. 11, 1939.

DOCTOR LEE DE FOREST CHAPTER III

The Chapter enjoyed a wonderful reunion at the Brotherton Cafe in Pasadena last May 31st so has scheduled a 'repeat' for this year which should 'top them all'. Regretfully, Director Charlie Lee had to resign due to prolonged illness (4 trips to drydock and still on the binnacle list although reported improved).

Judge James Harvey "Jim" Brown has volunteered to accept the Directorship of the Chapter. He attended the San Mateo cruise luncheon of Chapter III. Notice of the coming reunion May 31 has been mailed. SOWP members from other areas who may be in LA are invited to attend but should send in reservation ahead to Director Jim Brown whose QTH is 1802 Redesdale Ave. LA., CA. 20096. The tab is $4 which includes tax/tips. Mrs. Maria de Forest has been invited as honored guest again this year.

OTIS MOORHEAD CHAPTER IV

The reunion of Sept. 7, 1974, at the JOLLY ROGER in oceanside was a gala affair. First, it exceeded expectations and the overflow crowd made it necessary to open up rooms adjoining the main dining room which (as lifeboat #1) was limited to capacity of only 50. The adjoining rooms did accommodate the many members who came but made it impossible to hold the stated meeting scheduled. Brandy Wentworth took over as M/C due to Ev Henry's absence on a trip to the East Coast. One of the attractions of the meeting was Brandy's sloop "Flicka" which was moored alongside. This drew considerable attention. We were happy to also enjoy the company of that very gracious person, Mrs. Maria de Forest who was honored guest.

During the early part of this year, Mr. Henry informed us that due to much planned travel and personal activities scheduled, he feels that he is doing the Chapter a disservice by continuing to occupy the directorship of the Chapter, hence asked to be relieved. We therefore asked the Chapter's Senior official Brandy Wentworth to take over and he has accepted the responsibility. Our dedicated member Ernie Wilmshurst has accepted the office of Secretary/Treasurer of the Chapter. The Chapter has set a tentative date of August 9 for their reunion. Details will be furnished at a later date.

JACK BINNS CHAPTER - V

Director William A. "Bill" Fuller informs that the Pac. N.W. Chapter will probably hold their reunion in late May or early June. Senior V.P. Gordon Pascoe and XYL Vera are in the N.Y. area visiting their daughter and family. The Portland area members recently held a get 'together' of members in Northern Oregon.

GUGLIELMO MARCHESE MARCONI CHAPTER - VI

The Marconi Chapter has been an active one during the past year with some 9 meetings recorded, plus 3 Executive luncheons, 1 picnic in July and Chapter members have taken 4 tours. Director Filtness has issued several very fine Newsletters for the Western Canada Chapters named "The Maple Leaf." Norm Macdonald is acting program Director and Bill Corson, Treasurer. Meetings have been held Jan. 25th, Feb. 22nd, and April 26th at Sambo's Restaurant in Burnaby. It may be noted that the Marconi Chapter was formed five years ago in Burnaby so this Chapter celebrates its 5th Birthday this year.

Area Director Arthur W. "Bill" Filtness is in contact with SOWP members of Eastern Canada and it appears a new chapter and perhaps a new net may be formed in the near future. We credit out Canadian members as being the most active. The old saying . . . "You don't get more out than you put in" applies to membership in the Society. It takes 'team effort' and willingness to hold office and take one's share of the load to make it really 'click'. So far, our Canadian chapters have had the right combination to make it really worthwhile.

THOMAS A. EDISON CHAPTER - VII

The Chapter held a very enjoyable meeting at the KINGS INN at Sun City Center, Feb. 20th. While it was the chapter's first meeting and the attendance was not as large as hoped for, never-the-less those who did come had a most wonderful time, as reported by Director William C. Willmot. Member Joe Mitchell made the FB arrangements. Rex Matlack brought some 'old-time' keys alone and also put on a tape recording carrying the last messages of the SS QUEEN MARY GBTT as she sailed down the Hudson on her last voyage . . . QRD to Long Beach,

(Cont. on page 19)

HEAD TABLE

Members of Thomas A. Edison Chapter, Feb. 20 1975 Sun City Center, Fla. L/R. Rex Matlack, Frank Atlee, William C."Bill" Willmot, Joe Mitchell, Dana Barber.

REUNION of Chapter III members, June 29, 1974, at the Brotherton Cafe, Pasadena, Calif. John N. Elwood near microphone at top center. Phote: Al. Barttro.

Calif. via Cape Horn. Station "WSC" wished the ship Bon Voyage as they cleared New York harbor for the last time. Program Director "Mitch" Mitchell made all arrangements and his XYL Vera acted as hostess. Jim Dyer was the lucky winner of the door prize which was a book titled "The Lusitania."

Since organizing the chapter, Bill Willmot has put out a periodic Newsletter (Title) . . . "QTC" which carries a lot of good info about chapter members plus news of considerable interest.

An election was held this Spring to relieve Bill as Chapter Director since he has accepted the position of Vice President, P&R, for the Society. Unfortunately, one of the Chapter members who indicated he would accept the post of Director and whose name was printed on the ballot form sent to all members, decided to withdraw after ballots were mailed. This negated election efforts with resulting loss of time and expense but most serious, no replacement for Bill. Since our Florida membership is now sizable, it appears that some of our very public spirited members should step forward and accept office. Such cooperation is needed at this time. Please drop Mr. Willmot a line if you are willing to volunteer for Chapter office.

PACIFIC SOUTHWEST - IX

Director Charles Blake informs that the last Chapter meeting was not too well attended due, probably, to long distances and relative sparce number of members in the area. The Society has picked up quite a large number of new members during the past year so Charlie says he will try to schedule another reunion when the weather cools in the fall.

CAPITAL AREA CHAPTER - X

By coincidence, Chapter 1 and Chapter 10 held their reunions on the same day this Spring - April 19th. The Capital Chapter met at the Black Angus Restaurant in Falls Church. We have not received a director report from the Chapter at press time. However, several of the members attending said they had a wonderful meeting. John F. "Tex" De Bardeleben has been building the Capital Area Chapter in size and interest until it has become a very important entity in a rather short period of time. This takes good direction and administration and "Tex" seems to have his share of 'know-how' so we feel the Chapter is in very good hands.

The Chapter's Newsletter, edited by Dick McIntyre, 877-PA, is a fine sheet. Last issue was in March. We think this is a 'binding' or cohesive force that keeps the members together, so congrats for a very fine job, Dick.

ELMO PICKERILL CHAPTER - XI

The "Pick" Chapter held a recent reunion of members at the Ramada Inn, Rochelle Park, N.J., April 5th. Members report a very wonderful 'get-together'. At press time, we have not heard from Charlie Maass but he is a pretty busy individual. Not too far back, we received nice kudos on Don Masten, Secretary and Howard Lasalle who is Program Director of the Chapter.

Chapter Newsletter (issue 6) had some pix that we are publishing (P-12) of Earl Korf and Bill Gould's trip to "WSC." Comment and drawing on Page 3 didn't escape notice either. We are snowballing our membership but while there is some similarity between snowballs and objects d'art, published, we think one would have to concede that it would be difficult to relate one with the other. We are therefore taking Charlie's advice and taking it with a milligram of salt.

GONZALES CHAPTER - XVI

A meeting og Chapter members was held at the Captain's Palace, March 8, 1975. Regretfully we do not seem to find record of other Chapter activities.

P.S.:

I AM THE CAPTAIN OF THIS SHIP
AND
I HAVE MY WIFE'S PERMISSION
TO SAY SO...

Sign noted aboard the Sloop "Flicka"

As We Go To Press

CHECKING • UP •

SOCIETY'S FUTURE

The life, health and growth of any organization is tied pretty close to those who direct it. The Society of Wireless Pioneers has is a few short years become the largest of its kind in the world. It is no longer possible for a single person, or even a small handful to give it the direction it needs.

The founder of the Society has now given some eight years to Society matters, sometimes to the exclusion of personal affairs that have needed attention. He has thoroughly enjoyed his role. It is a 'labor-of-love' . . . an "all-absorbing" avocation and hobby combined in which he is dedicated and devoted such time and effort without limit.

Because he is vitally concerned about the future of the Society and being aware of actuary figures on life expectancy, he feels it prudent that we have qualified "back-up" members who can take over in case of an emergency.

There are some extremely talented men in the ranks of Society members and we believe there are among them, many who would consider volunteering their time and effort in the direction of our fine organization and its great work.

This appeal is directed to the dedicated members who are willing to give of their time and substance without expectation of monetary reward. The reward of working for others and doing a job that returns boundless appreciation and thanks transcends that of pay.

So if you feel you can fill a certain 'niche' in the organization or have special talent along certain lines, please drop your President a line. It may open up a new avenue of enjoyment that you did not think possible.

Parenthetically, your Director hopes to continue in a major role perhaps with more time devoted to publications, for some time to come - God willing. Fingers are not as nimble and dexterous as they used to be and perhaps mind not as alert. So please forgive any 'faux pas' noted. Forbearance in the grammatical composition including spelling errors will also be appreciated.

"PIER-HEAD" JUMP

The following jumped aboard after we had cast off the lines and literally under way. These will be added to the new members listed at bottom of page and those from Page 58 which was held open. APPLICATIONS RECEIVED May 6 1975: 1967-PA Donald E.Wilson, Riverside, CA; 1968-PA Leland L. Bahr, Woodridge, Ill; 1969-PA William Harnick, Chilliwack, B.C. Canada, 1970-PA Robert B. Anderson, Cocoa Beach, Fla. Also added is Joseph Horvath, San Rafael, CA. TA-39. Welcome aboard.

DE FOREST PIONEER AWARD

Two of the Society's members were included in the Award Presentation made by the "DeForest Pioneers, Inc., at their 23rd annual awards-dinner" held May 2 1975 in New York. They included Messrs. Dexter S. Bartlett, Society Historian and Wm. A."Bill" Breniman, Society Director.

Both S.O.W.P. members are deeply appreciative of the . . . "deFOREST PIONEERS CERTIFICATE OF MERIT AWARD" presented by President J. R. Poppele. Admiral Ellery W. Stone accepted Mr. Breniman's award since your Director could not attend to accept in person due to publication of this Newsletter. Thanks to Kenneth Richardson and all others who were concerned with the award

OTTO J. KRAUSS FUND

Pioneer Member Otto Krauss became a 'Silent Key' Jan. 30, 1975. Because of Otto's great interest in the Society, his widow, Ann requested that contributions be made to the Society in his name - instead of flowers. The amount received, well over a hundred dollars has been added to the Jack Binns fund which is used to insure that our unfortunate members (illness, incapacitated and in some cases those of little or no income or means can still be retained as members and are furnished all of the Society's publications w/o having to use regular sustaining dues for the purpose.

REPROGRAMMING SOWP PUBLICATIONS

Reference is made to Program Schedule on Page 2 of this Newsletter. Due to the great interest and request for a new Directory caused by the large influx of new members) we have decided to switch publication of SPARKS IV with that of the next scheduled Directory printing. PORTS O' CALL will be our next publication (early summer) followed by the Directory and then SPARKS IV.

A second change which will be made in future publications will that that of including the resume' of New Members, found in Pages 21-62 of this Newsletter in the DIRECTORY/CALL BOOK instead of the Newsletter/s.

LAST MINUTE CORRECTIONS

Page 60 N.E. Net Schedule... W1DIU is call of "Bus" Gahm instead of W1DU listed. Please change. (#6 schedule). Acknowledgement to John Elwood for proofreading Pages 45-55 with many errors, self evident, typing etc. No space to correct but Netbul will carry. TU.

THE BEGINNING OF THE END:

THE LAST PAGE

The last page of our Newsletter is always harder to write than any other. One basic reason it noted above which we hope to change. Much to print but no space to put it. A change is coming so if you didn't make it this time, don't be discouraged we think the odds in the future will be drastically better.

The Editor and staff at S.O.W.P. would like to take this occasion and opportunity to send our best wishes to one and all. Above all, we wish you good health and happiness.

LAST WORDS: We make a living by what we get. We make a life by what we give. 73

May 6 1975 Bill Breniman

NEW MEMBERS

The new members listed in this News-Letter have joined the Society since about June 20th 1974. It includes all new members not previously listed in News Letter Supplement No. 1 (Summer - 1974).

All members have been listed in the weekly Net Bulletins issued Chapters, Officers and for information on various nets.

This listing is an experiment in that we are using copy originated for the Netbuls which in effect will cut the work-load of typing by many hours while at the same time furnishing information about each of the new members without too much summarization or reduction. It is anticipated that the type size may not be as large as we would like but we think it will be very legible. It is a compromise in furnishing full data with small type or that of extracting essential information in larger type.

You can let us know your feelings about the experiment and future copy will reflect the majority expression of your wishes.

It should be noted that in a few cases, that new members have furnished corrections on dates or some data included in their report. It is difficult to work up this listing including same in the sequential copy. However, we will try to include it at the end of the listings and will key the listings where such should be checked for reference with the following legend (◉).

We hope to work up a new DIRECTORY in the Fall - 1975 in lieu of SPARKS - 5 which is scheduled for Nov. 15th. The next issue of SPARKS - IV is scheduled for July 15th.

UNDERHILL, CHARLES R. (Jr.) (Reg/Frances)
RD-2 Butts Bridge Road, Canterbury, CT. 06331
Phone: 203/546-9650

FS: 1917 - SS Rio Grande / KEG
While "Reg" (or Rex as some call him) tells us his career as a brass pounder is of no importance we think his background and experience should rank and list him as one of the true "Spark-Gap" Pioneers. His experience in knowing and working with those of radio-telegraph in the early days is outstanding. His father (Charles R.) co-authored a book "Wireless Telegraphy and Telephony" with Walter Masse (1909). Father was Capt. in Aviation Section of the US Army Signal Corps. Reg knew Edwin Howard Armstrong from high school days and his first wireless receiver was hand made by Armstrong and presented to his father circa 1912. He also knew and/or worked with Paul Godley, Prof. Hazeltine, Dave Samoff, George Cole WCG and later WNY and many others. (We will publish more about his experiences in coming issues of SPARKS).

M: Many F&AM lodges and affiliates. Historian or belongs to several Historical Societies.
PARTICIPATION: Assures us he will help in any manner he can, especially with historical memorabilia and historical data.
QSP: AARP/NRTA Bulletin Feb. 1975

AMATEUR. No.
H: Photography, Exploring (Leader with Boy Scouts of America).
QSP: National Guard Association (News item about SOWP)

NEW MEMBERS

TOO LATE TO LIST

SPARKS II published all new members to No. 1534 who joined August 22 1974.

This (foregoing) list brings us up to date (over 1900 members joining to date) or over 250 who have joined since the first of January 1975.

We will hold page No. 56 open for members who join from the time this list has been closed until the last page going to the printer. Please turn to Page 56 for "LAST MINUTE NAME OF NEW MEMBERS JOINING. We hope to publish a Directory of all members this coming Fall.

REFERENCE MARKS

Reference marks used for corrections etc., from pages 21 to 48 inclusive will be found as shown at the right
A = Page 50, B = Page 54, C = Page 49
D = Page 53.

◉ A-50 ◉ B-54

◉ C-49 ◉ D-53

LISTING CHANGES, CORRECTIONS, ADDITIONS, ETC.

Reference was made on Page 21 to the legend mark (◉) used to indicate errors in listings. Following are corrections, additions, changes, etc., sent in by members. It is suggesged that you refer back to their listing/s and make the necessary correction on the original copy, or at least 'cross-reference' so that you will be able to find without delay. While we admit our share of errors (typing and other wise) some copy is not very legible and often new members decide to add or correct entries and furnish the new data for their records. We regret that we can not make the correction/s direct on the original listing, but using the system we do, it is next to impossible.

CHANGE OF ADDRESS ©

BRADEN, MELVIN E. 730-V
Route 2, Box 325, Eff.1/29/75
Quitman, Texas, 75783.
Old address was Lubbock, Texas.

WIRELESS SPARKED MANY SUCCESSFUL CAREERS

Chapter Eternal

"SILENT KEYS - IN CONTEMPLATION"

In spirit they have not died
But have simply QSY'd.
Old soldiers may have just QSB,
But the O.T.S appointed place
Is on a higher frequency.

Where DX'ers need no mode, rig
To communicate a sig.
Where QRN and static rife
Is absent - as is QRM.
Cause of such ignoble strife.

- And while Earth's ops, contemplate
They, 'from up the log', await
On the infinite band.
Where DX is eternal,
And brotherhood, the kinship grand.

--- Alan Shawsmith - VK4SS
SWP-1132

Silent Keys

ZIMMER, HAROLD F. "HZ" (Marjorie)
7647 Adrian Drive
Rohnert Park, Calif. 94928

Mrs. Zimmer called HQ this date informing that Member Harold died June 6th 1974. Cause was cancer. Funeral services will be at Petaluma June 8th. FS: S.S. CALIFORNIAN KDYD 1919. He served on the Himboldt, KFS Wallingford and in 1930 joined C.A.A. to where he served at KCV Oakland to 1933, then Salt Lake City KGD, North Platte to 1936. In 1936 he went with PAA Alameda. 2 1940 he was on the SS MERICOS WHITTIER, USAT CHIRIKOF, 1944 to 1965 at KPH.. Ham call was W6AOY. QSP: by Frank Geisel.

526-SGP

RIDDLE, ELMER R. "EL" (Esther)
P.O. Box 851
Jensen Beach, Fla. 33457

Wife Esther reported to Director Willmot of the Thomas A. Edison Chapter that Elmer died August 25 1973 while on a trip to North Carolina. He became ill nad went quickly. Cause or other details not known. His first assignment was at Ft. Winfield Scott in 1914 He served on a number of USAT, also Bolinas and Rocky Point. Worked for Ed Stevens who was his sponsor in SWP. Later Gen. Mgr RCA in Phillipines and in head office until retirement in 1957. He was with Ellery W. Stone at Bolinas in 1916.

SILENT KEY

SHAW, WILLIAM H. "Bill" 371-SGP WB2VEJ

We received the sad word this week of the passing of a real old timer in the business - Bill Shall of Cape May Point, New Jersey.

A letter from Bill's son Henry told us that he passed on, Wednesday June 26 1974. He was reported as having made some recovery from recent illness (bout with the flu) but his heart had weakened.

Son Henry said ... "Father greatly enjoyed his membership in the SWP and the contacts with the other old timers it brought him" ... and thanked us for the many recent letters to his father.

Several others also reported Bill's passing, including Ed Raser (NE Area Director of SWP) who thought Bill about 85 years of age. Ed said that Bill had one of the most beautiful fists he had ever heard or copied and that would almost put him on par with Elmo Pickerill - and that was saying something as "Pick" was TOPS !

Bill was good equally with Morse or Wireless codes (Int'l.) Hollis Hoffman often said his handling of a bug 'made music on the air'... and he was right.

Bill was often called "HAD" a nickname (according to Frank Atlee who also knew him well) because he 'had' been at Cape May Point when President Harrison owned a vacation cottage there.

Bill Shaw was first assigned station MCY at Cape May in 1910. Call of the station was later changed to WCY. He was known all over the East Coast by nearly every op in the business.

Bill assisted in handling a SOS from the Steamship SURRIABLA when she went ashore on Brigantine Shoals in a blinding NE snow storm Xmas Eve. 1911.... Bill in more recent years has been quite active in handling traffic for ARRL and has always been a loyal booster for the Society. We shall all miss him. Thanks to many for furnishing info about his passing.

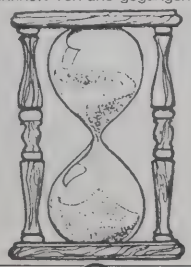
1299-P

DARGATZ, RICHARD "Dick" (Gerda)
Hermann-Lons-Weg 6
2852 Bederkeen (Near Bremerhaven)
Wesermunde, West Germany.
Amateur: DL-1-XA.

Born Feb. 13 1900. Died July 16 1974
Cause of death unknown.

Dick was well known in German wireless circles. He taught at the Nautical Academy at Bremerhaven for many years plus some 15 years of teaching at Radio School. After WW2 he taught in the U.S. I&E School from 1947-49. His FS (First Station) was on the SS RUGIA/DQS in 1922. Thereafter on many large German ships including the SS BREMEN, COLUMBUS, RESOLUTE, HANSA, etc. (M) Member DARC, AGCW (High Speed Club). Sponsor was Mr. W. Felix Koemer.... "Mein lieber Mann, mein guter Vater, unser lieber Opi ist heute nach kurzer, schwerer Krunkheit von uns gegangen".



44-P

JOHNSON, ART (Stella)
460 - 18th St.,
Santa Monica, CA. 90402.

A long-distance call from "Bill" Larsen reported the passing of early charter member Art Johnson at 3PM July 26 1974 from heart failure. He had been in apparent good health to point of passing, having attended his Masonic Lodge the evening before.

Art was widely known in communication circles as he was one of the first Supervisors on the Federal Airways (Post Office Air Mail) with assignments at Salt Lake City, Oakland and Los Angeles. Thousands of communications people knew or worked for him, including your Executive Director who was his Staff Chief in the Los Angeles Region (CAA) Where Art was Chief of Operations, and Ye Ed (Sparks) Chief Planning and Technical Service Division (Circa 1953-57). Bill Larsen was Art's Deputy. The loss is a personal one, especially since all who knew or worked for him held him in high esteem both from his inate ability and humanitarian traits in daily contacts with all associates at every level. Amateur experience date back to 1911 with call "NF", 9AL, 6ZI and 6XBE. FS: 1917 USS San Diego. SOS/CQD'er from the USS MANLEY 1918. 1919-20 TransAtlantic Control Station, Washn. NSS/Annapolis NFF New Brunswick, NWW/ Tuckerton and NDD Sayville.
1921 KWT with Federal Telegraph Co. with A. Y. Tuel. Joined P.O. Dept. 1920 and helped to install operate and maintain system mostly in Western U.S.A.
Art attended nearly every Chapter III Reunion and was always a very dedicated SWP booster. Like all other good members - "Art" will always be remembered as one of the top men of our craft.

COLE, MORRIS P. (Morris/Lottie)
66 Pinecrest Drive
Hastings-on-Hudson, NY. 10706

Lou Mateo WB2MVK in a letter dated 7/29/74 reported the sad passing of his friend and SWP member Morris Cole by electrocuting while repairing a main transmitter on board a foreign flag vessel. Date was not indicated.

Morris FS was theC.S.E. DOUARD JERAMEC/ WDET in 1936. (Edward Jeremiah)He also served on the Sylvan Arrow/WSCX, Broad Arrow/WSCW SS MOBILGAS to 1942 when he became Marine Service Mgr. ITT and worked at same for over 30-years. He was always willing to share his vast amount of experience with newcomers in the ship communication's game according to Lou who was his SWP Sponsor. M: ARRL, ARA.

118-SGP Aug. 17 1974

GROGAN, LESLIE (Grogie-Bernice)
13 Belford Drive, Daly City, CA. 94015

We received notice that Charter Member, "Les" (as he was known to many of us) and "Grogie" to others, crossed the bar August 4 1974 in the Skyline Memorial Hospital, San Mateo. He had been in the Linda Mar Conv. Hosp. for some time, and quite ill since Christmas (see Netbul 6-13-74 No. 74-20) In and out Hosp. since 73 and at times wife reported he did not recognize her. FS: S/S ARGYLL/WTB. At one time he was in business with Henry Dickow in the publishing business (RADIO) (Pacific Radio News). While on the SS LURLINE QRD HU 1941 Les picked up the Japanese Fleet and took DF bearings on them which he reported to the Navy at HU. We have his story and may bring it to you some time. Note: Les was on the SS Argyll in 1911 and one of the West Coasts real old timers. He was sponsored into SWP by Fred Mangelsdorf. Report of passing came from our Commodore, W. Earle Wohler this date. Les was nearing his 80th birthday Nov. 14th 1974.

BROYLES, HUBERT D. (Sparks/Gen)
ON-415 Prince Crossing Road,
West Chicago, Ill. 60185 W9IDY

Member John K. Holland reported the passing of our Charter Member "Sparks" Broyles on Aug. 10th 1974 after undergoing surgery to remove two clots from the brain. Info was relayed by member W9EGR Clyde E. Roberson of Milwaukee who himself had returned home after surgery but in much improved condx.

Broyles FS: 1923 SS Grand Island and with much time on Great Lake Ships including the Prince McKinney, Conneaut, Wm A. Reiss, Baldbutte, J.S. Manuel and J.R. Reiss. He was also with Universal Wireless WKDE. Later he served with the CAA at Bradford Ill, Columbia, Pembina, Chicago and St. Louis, retiring in 1962, returning to the West Chicago area. Early amateur call was KØLQH/1957. He was a very superior operator who took pride in his work. As a Charter member he assisted materially in our early days of recruiting new members. Early net with "Mike" Goulart of Springfield, Mo. (WØAH). Between the two, they brought in many new members to SWP.

379-SGP.

STEVENS, EDWARD D. "Steve"/Wdr.)

Information received through Charlie Lee, Director de Forest Chapter III of the passing of one of our very early members. Passed Away Aug. 29 1974 after long illness. Ed (or Steve as he was known to most of us) was a native of Colorado, Resident of Yucaipa, Calif. and interment at Tulocay Cemetery, Napa, Calif. (Services 8-31-74).

Steve's first assignment was in 1905 on the USS CHICAGO. In 1907 he was assigned Point Arguello - call "TK". He received his COS in 1911. Served in 1910 on the Monterey (station) PQ and 1910 at S. F. "PG" (UWT/Marconi). Steve was on the Chicago when they received info on the S.F. Equake. History would fill a book. He was at or nearing 90 years of age when the Chief closed his key. Most everyone in the early days of the 'wireless' knew Steve. The Wireless Pioneers were honored to have him as a member.

JEFFORDS, JOHN M. 778-V (Jeff/Marcia)
209 Franklin St., Fayetteville, N.Y. 13066.

We received information via SWP Net that our member "Jeff" became a silent key Sept. 19th 1974 - condx was either Heart or Emphasema. Jeff joined the Society in March 1971. His FS was the SS Robert E. Lee/WTCH in 1928. He also served on the SS City of Birmingham, Chas Pratt, H.M. Flagler, SS Carrillo, SS San Mateo and SS Veiagua to 1934. He edited a radio column for Amateurs in the Syracuse Herald American (weekly). Jeff was also a member of ARRL, OOTC, QCWA, ECARS and AWA.

SILENT KEY REPORTED.

ST. CYR, ALFRED. 903-PA
We have received a report from a new member that Al St. Cyr became a Silent Key but no further information or details. New member reporting was William Black, 1560. We have requested etails. His address: 8310 Kennedy Blvd., North Bergen, N.J. 07047. Call was W2LOQ.

1203-P

WALTER, CAPT. JOHN C. (USN/RET)

We have received word from A.J. Hopkins, W6SO of San Diego telling us that his good friend and our member joined the 'Eternal Chapter' a few days ago. He had lunch with him the day he passed on, hence probably a heart failure. We will bring details and date as soon as possible.

John's FS. was the SS CRISTOBAL/KMD in 1922. He was an early shipmate with Syd Fitzhugh (colleague of Ye Ed) and worked at WNU circa 1925, also at UC Tela Hond. UC, UF and UA. Other ships include the SS/s: Magmeric/KOJS, Esperanza/KWZ, A.F. Luckenback/KIFV, Koncho/KEC, Coldbrook/KOQK, West Erral/KERJ. saguache/KEKL, Federal/WJOO, H.C. Folger/WHCF (Sent pix used in SPARKS-III - Page 67). Excambion/WEEY, SS Washington WLEE. etc. John was member of ARRL, OOTC, QCWA, IEEE, AFCEA, ASNE, CSPE, NSPE, etc.

Thanks to Mr. Hopkins, W6SO for taking custody of some early records and data that wife Kay wish passed on to the Society. QSP and sponsor of John was John Elwood.
N-141. MTF SAP.

DOCKENDORF, JOSEPH P. 1437-V

The following received from Joe's mother which supplements our report in NETBUL 74-44 P-3, Col. 3: "Joseph went to the market Nov. 2 to buy groceries for me. Coming home his foot slipped on the wet pavement and two of my neighbors brought him to me and put him on my bed where he lay until the 5th refusing to let me call the Dr. He said his hip was sprained. On the 5th I called the Dr. and they sent an ambulance and took him to the Alexian Brothers Hospital. His right hip was fractured by the Drs. found he had a heart condition so they delayed surgery. Daughter from Yuba City arrived Sat. Nov. 9th and we hurried to see Joeseph at the hospital only to be met by the head nurse who with their Chaplain advised us that Joseph died about ten minutes before our arrival. Burial was in the Veteran's Section of Oak Hill Memorial Park San Jose, CA. Nov. 14th"

Our good member Joseph joined our Eternal Chapter, Nov. 9th 1974 according to a letter from his mother, Mrs. MaryBretherton of home address, San Jose.

Joe's call was W6UL. His FS. was the S.S. SARAMACCA/KLH in 1927. He was sponsored by Ed Marriner who was one of his students at the Frank Wiggins Trade School in LAX, circa 1939-1940. He also did a stint on the Airway from 1931-34 being assigned KCJ Elko and WWAU at Memphis. He was an operator on Air Mail Route 4. In the fall of 1952 he joined the SOS/CQD Club, sending the distress message from the Karen Olsen in the Fall. The Olson was able to jettison lumber and later resumed her voyage at 2 knots per hour.

Joseph also received two commendations for working and handling emergency calls from aircraft in distress. One North of Midway on a Navy plane that ditched. Also one from Era Eaker, when F.D.R. started the U.S. Army Air Corp. to carry the mail.. Joseph used the call 5SR in 1924 so was one of the early day amateurs.....142/N.

MOWRY, CLAIR E. Sr., 766-P

Copy of "Sparks" - III was returned from the above member marked "DECEASED". We have not received other reports substantiating the passing of "Ed" (K8AEB) and of course always hopeful that it was inept help rather than fact. (PO Dept.)

Ed's QTH is 714 Diana Street, Ludington, Mich. 49431. He was an early "Lake" operator with FS in 1918 on the SS CITY OF ERIA/WTS.. He served at Shore Stations WMW Mantitwoc and at the Ludington, Michigan Station "WLD" (1924-1939). Later retired from C&O RR in 1967.

IRVIN, JOHN C. 674-P
831 Wilkinson St., Orlando, Fla. 32803

John joined the ranks of "Silent Keys" Thursday, Nov. 28th 1974. He has been quite ill for the past year, since breaking an arm according to Pete Fernandez who sent us the report of passing. Pete and John were shipmates on the SS. CUBA back in 1924. John was also sponsored by Pete for membership in the SWP some four years ago.

First assignment of our good members was in 1915 on the USS CASTINE/NDA. Later he spent some 35 years with the P & O SS.CO. He also spent Navy time on the USS Louisiana, Nevada and Wisc. He was on the SS Philadelphia when war was declared with Captain Herbert Hartley. One of his assignments was on the "Cement ship" SS VITRUVIUS which was intentionally sunk on Normandy Beach as a 'block' ship. This was the first cement ship to cross the Atlantic which took from Jan. to June in 1944.

Survivors include 3 sons and 1 daughter in addition to wife Jeanne. John was 80 years of age when he became a silent key. May we always remember our good shipmate and fine member John Irvin.

N-145

BRAY - JOHN T. 143-P (Jack/Beatrice)
308 Westminster Avenue,
Cherry Hill, N.J. 08034.

Word was received by SWP Jan. 6th 1976 through W. Earl Wohler, Charter member No. P-4 and Sponsor of Jack Bray, that Jack became a silent key Nov. 11th 1974 from a massive heart attack.

The info was furnished Earl by Jack's daughter Sandy Thurber. Jack's wife Beatrice (now ill) with daughter Sandy had visited Earl and Frieda Wohler on one occasion when they sailed from N.Y. on the SS Queen Mary (1) a few years back.

Jack was reported to have apparently had a 'mild' heart attack earlier but did nothing about it.

Jack's first assignment was the SS NILE in 1920 (VRE) sailing between S. F. and Hong Kong via Shangtai etc with Earl Wohler who was his sponsor.

The Society sends its condolences to Mrs. Bray and two daughters and families.

SILENT KEY Jan. 7 1975

GALLO, LOUIS J. 804-SGP (Lou/Margie)
1507 North Miro St., New Orleans, LA. 70119

We received a report this date that SPARK-GAP PIONEER member "LOU" Gallo became a silent Key on Dec. 24 1974 at 9AM inhis home in New Orleans. Source of the report was SWP Member RAYMOND J. GREEN (SGP-395) who received a letter from Lou's wife Margie telling of the passing. Lou was 78. Cause not furnished. Lou's amateur call was W5AU, He had call 5AU back in 1912.

He was one of the 'EARLY DAY" Gulf Operators His first station LA, HK & WHK in 1912, these at New Orleans. Also served on the SS Brunswick KOS, Cartago KDD, Excelsion KKO. He served as Sec. Treas. of the Gulf Chapter URTA in 1921. He also served on many other ships including the SS PROTEUS of the Morgan Line which ran from New York to New Orleans. It sank in the Atlantic off the Carolina Coast in July 1918 during a hurricane.

The Society sends its condolences to wife Margie and family of Lou. He was one of the true Pioneers of Wireless !

Silent Keys

Silent Key Jan. 10 1975

DINGLEY, EDWARD N. JR. ("Ed") 624-P
11165 - 4th St. East. St. Petersburg, Fla.

Word was received today from Franklin Atlee - K4PI of the Edison Chapter of the Society that Captain Ed became a silent key Jan. 4 1975. Cause of his passing was cancer of the lugs. He had been in failing health for some time and had nurses around the clock before being taken to the hsopital. He is survived by two daughters. (We also received a report of death as Dec. 4th but believe it to be inaccurate - we will check). Ed's first ship was the SS SATARTIA/KIDC back in 1924. Captain Dingley authored numerous technical articles and was granted man y U.S. patents on his inventions. He was a Fellow member of IEEE and IRE. He spent some 30 years as electronics engineer with the Federal Gov't. and retired from his Civil Service Commission (position) as Chief Communications Engineer of theNational Security Agency, Washn. D. C. moving to St. Petersburg where he joined Electronic Communications, Inc. as Prin. Engr. Scientist. Ed. surveyed the site for the Mackay Station WMR at West Palm Beach, Fla. in Apr. 1930. Wife Celene who was active with Ed in the operation of station W2PM predeceased Ed July 18 1970. Ed's first call was 1-BCX in 1921. Ed was Captain, USNR/Ret. Ed was very well known and had many friends throughout the world. "30" to a grand person.

KRAUSS, OTTO J. 281-P
We regret to advise that one of our early members and staunch supportors, became a silent-key Jan. 30 1975 as reported by good wife Ann. Cause not given.

Otto's first ship was the SS FORDONIAN/KRU in 1922. He later served aboard the following: David McKelvy, Sudeco, Virginia Ltd., Eastern Crown, Corninge El Cid, Trader (Morgan Line Ships) El Norte, El Largo, El Almirante, El Oceano and Ward Line Panyco, and Comaguay. In 1931 he went to the Pursers Dept. He always kept his "hand in". He served aboard the Algonquin, Cherokee, Mohawk Seminole, Iroquis, Shawnee, Orizaba, Siboney, Havana, Oriente and Morro Castles. Later years on President Lines His remains will be carried to sea on an APL ship with burial at sea.

Otto and wife Ann attended the Society's meetings in the Bay Area without fail. He was always very willing to assist in any way. We owe our departed member a big debt of gratitude as we say "Thirty".

FEB. 11 1975

DINGER, HAROLD E. 1346-V
2106 Keating St. Temple Hills, Md.20031

Report was forwarded by the CAPITAL CHAPTER informing us of the passing of Member "Hal" Dinger (W3KH & W8KG) on Feb. 3 1975. Cause unknown.

"Hals" association with wireless and radio was a long one - since 1917 when his station 8UC went on the air. He participated in the noteworthy and historical flights of the USN AKRON and MACON (lighter than air craft) as r/o stationed at Station NID, Akron, Ohio (USN). He was member of AWA, ARRL, OOTC QCWA, IEEE, X-AFCEA and others. He also taught Communication Operations at McKim Tech. Inst. He has a display of over 1600 postal and telecommunication/s items. Funeral was Feb. 6th. Interment at Cedar Hills Cemetery. Expressions of sympathy may be made to the Memorial Fund of First United Methodist Church, Bradbury Heights, Md.

"Thirty" and smooth seas to a brother shipmate.

Continued in Col. 3 at Right

HAMMELL, JOSEPH F. 423-SGP
1010 Mesa St. Vista, CA. 92083

Word was received of the passing of this "Old-Timer" from "Irv" Hubbard who was the first Director of Chapter IV and sponsor of Joe in Sept. 1969.

According to records, Joe became a silent key March 18 1975. He died at his home in Vista. He was a native of Philadelphia and had lived in the Vista area 25 years. Member F&AM 388 of S.F. Graveside service, Mar. 21 at Eternal Hills Memorial Park. (Cause of passing not indicated.)

Joe's first ship was the SS JEFFERSON / HM (later WAJ). He started to sea in 1912. Later assignments on the Dolphin, Rose City, Cordoba and Norwood. While on the Norwood he sent an SOS but details/date not recorded. He was schoolmate of Reggie Baer (D) and Bill Erick SOWP members. Newspaper recorded age at 80 when Joe died, although he indicated he would have been 87. "Irv" Hubbard said of Joe, when he joined ... "He is one swell guy"! That goes for all of us who knew him. N-150

128-SGP March. 24 1975

HOFFMAN, WILLIAM HOLLIS

We have received a report by our long time member Franklin Atlee (K4PI) of the passing of one of our CHARTER MEMBERS. It was reported that Hollis had suffered a severe heart attack about two months ago and had been in and out of the hospital several times since.

He died on the 19th of March. His home was 740 Kresson Road, Cherry Hill, N.J. 08003. XYL is Kate. His amateur call was W2WJ.

Hollis first assignment was on the SS Indian/KKI in 1913. He sailed mostly on the Atlantic and in the Gulf of Mexico. Some of the assignments included the SS Toledo, SS Rescue 1914, SS El Rio, WSY Virginia Beach (1914). 1917 to 1919 USNRF Listening Station and Bureau of Standards. Early Amateur call was 3-BT (3BT) in 1912. Member ARRL and OOT. He joined the Society in May 1968. It is with great regret we record the passing of member with such great talent and experience and a faithful and loyal backer of the Society. 30.
N-151.

The following supplemental information has been furnished on William Hollis Hoffman by Edward Braddock W2BAY one of "South Jersey Radio Ass'n. Directors and from publication "HARMONICS": Member Hoffman was 81 at death. He was born on Cape May in 1894. He retired from RCA in 1959 and was widely known for his early development of the "Grid-Dip Oscillator.". TU Ed.

(Continued from Col. One)

Add call: W5QYK

SCHMIDT, PAUL L. 1413-V
Correct call to read: W9IDP (Indiana Dried Persimmons)

Technical Associates of the Society

TECHNICAL ASSOCIATES are not bona-fide members of the Society. They are, however, individuals who have been long associated with or interested in the phase of communication/s that our 'professional' members used. They are eligible to attend meetings and receive Society publications and releases. They were first known as "Friends of the Pioneers" - a good discriptive term. They are not eligible to vote in Society matters but are welcome to attend our functions. Eligibility is limited to those known to have such sustaining interest in the art and the Society. They must be sponsored by members who will vouch for them.

"YES, M'AM, I KNOW HE SAID THEY WERE 'ROLLING BADLY' —BUT HE'S PHONING FROM A SHIP AT SEA —— NOT A TAVERN."

TA-31 Dec. 5 1974

THOMPSON, GEORGE K. & EUNICE RANDALL
P.O. Box 656, "Aldersgate" Orange City, Fla. 32763
Listed in the OOTC "BLUE BOOK" of Amateur wireless men is the name of "EUNICE R. THOMPSON" who is listed as one of the "Mighty Builders" of OOTC. She was reported as the ... "First woman Radio Broadcaster in the United States and Secretary of OOTC as well of its new publication 'SPARK-GAP TIMES'. Eunice and husband George did most of the work in 'putting together' the Blue Book which has been one of the most ambitious programs in the field. OOTC was founded in 1947 by Hubert E. Ingalls who was an early day operator on the SS Nantucket which caught fire and burned at sea in 1912. The Thompsons have been enthusiastic supporters and boosters of SOWP and have been responsible for many new members. They have also furnished much valuable early day material that we have used in our publications. Technical Associate "Eunice" was called "The Duchess of Christian Hill" by early day OOTC'ers. QTH was in Lovell, Maine where she was 'Mistress of Ceremonies' on the official OOTC roundtable at 6PM on 3940kc over station W1MPP. We are glad to have 'The Century Kids' in our 'rooting Section'!

TA-32 Dec. 8 1974

WYLIE, W.E. (Ed)
P.O. Box 102, Sweet Springs, Mo. 65351
While 'Ed' says he does not feel qualified for regular membership, he did graduate from the Harvard Radio School during WW-1 and was sent to Great Lakes as Instructor in their Radio School. He says he was on the air briefly (long enough to be told by station WBF - on top of Filene's Store to QRT.)

LISTING OF LATE NEW MEMBERS CONCLUDED ON PAGE 58.

LISTING CHANGES

THANKS to JOHN N. ELWOOD for proof reading copy, Pages 21 to 44 inclusive. Following are e rors noted and corrections which should be made in copy (Serial) as noted:

1455 Page 21 Chisnell
5th line from bottom should read... CW "provided" the only means of... etc.

1485 P-23 Robel
Line before AMATEUR. at Auburn Univ.

1695 P-36 MacKenzie
4th line from bottom should read:
15 or so 'top' telegraphers. etc.

1780 P-41 Doran
Phone No. 617/957-4978

1814-PA P-43 Stephenson Feb. 24, 1975

(This line did not appear very legible on copy)

1827 P-44 Sullivan

Line 4 from bottom should read...
(1942-45) CW traffic at various bases, also

Thanks John

LISTING CORRECTIONS, ADDITIONS, DELETIONS, ET CETERA.

1873-P O'BRIEN, RICHARD

FS: 1917 Sea-going tug "TRITON". Patrolled "U-boat 'Alley'" out of Falmouth, Cornwall, Eng. during war. Call letters changed frequently. Ones recalled were "DLD" and "HAE" (assigned by the Navy).

1093-PA MYERS, G.L. "Jerry"

Change in amateur call. Change from WB6RVH to WB7AVO/6. No change of address. (News) Expects add new 'little harmonic' coming Sept. w/lots of QRM.

NEW QTH.

1462-PA SPARLING, KEITH E.
Rt. 1 Box 12-A, MacArthur Circle Cocoa, Florida 32922. (4-7-75)

1847-SGP MATHEWS, RALPH H.G. "Matty"

Matty lives in Ajijic, Jalisco Mexico. Change his phone number to read: 376-5-23-65.

1889-PA CACACE, D.J. "Casey"

Rq. following Cqns. Years 1945-1949 should be corrected to read " 1945-1959". Spent 14 years in FAA in Honolulu pounding the 'old key'. Delete year 1945 preceding "Saipan" since this covered in years 1940-1945. Also, "FAA Kennedy" should read "FAA Kennedy Intn'l. Airport, NY." etc.

212-P CHINN, GEORGE W.

Add amateur call - KH6EA

1694-V LANGOS, LOUIS

Add following to listing: 1930-1938 served on Columbia River Lightship No. 88/KCK

1884-PA MORRIS, THEORORE W.

Make correction in assignment listings: The Liberator aircraft was a C-87 instead of C-84 as listed. Also 1257 Hrs flight time in C-54, etc.

Silent Keys

830-PA March 27 1975

CAGLE HAROLD K4CR
Rt. 10, Box 346, Jonesboro, Tenn. 37659

We received information March 27th of the passing of Member Harold who joined the Society May 16 1971.

His first station was at Ft. McPherson, Georgia 8-15-1941. In 1942 he joined the C.A.A. and was assigned to station "WRW" at San Juan, Puerto Rica.

He was a member of ARRL, AWA and formerly IRE. His hobbies were dogs, archery and ham radio. He accumulated considerable antique gear and his friend Forrest D. Pilgrim of W4JD is quite anxious to get in touch with those who might have some idea on such equipment.

Any of those interested might write Forrest W4JD at 1740 Orchard Court, Kingsport, TN. 37660.

The passing of member Cagle was Feb. 1 1975. Cause and details not furnished. Thanks to W4JD for furnishing the info.
N-152

1025-SGP April 10 1975

BRAUN, CARL E. (Blanche)
6940 N. W. Portland Ave., West Lynn, Oregon. 97068. AMATEUR: W7HRV

Member Harold W. Johnston, W7PN who is also Sec. of the NW Chapter QCWA reported from their "Data Sheet" that one of the real old timers of Wireless passed away on April 5 1975. Carl's first assignmwnt was on the USS BOSTON/NGC in 1912. He made the 'ATW' (Around the world) trip with Adm. R. D. ("Fighting Bob") Evans circa 1907. This carried 26 sets of de Forest Radio Telephone Equipt. He was radioman (Chief) aboard the U.S.S Oregon at the time. When this ship was demolished, he obtained the radio shack and had it installed at his home - fully equipped. He had been V.P. and Mgr. of Publisher Paper Co., when he retired. Dealth was due to heart attack as reported by Hal. Carl's first amateur radio call was "SY" in 1908. Some of the other Navy ships Carl served on included the Milwaukee 1915-20; St. Louis/NTF, South Dakota/NISE, also the USSB Deer Lodge/KIMD, the West Chiswald/KIXB 1919 and the Nishmaha KEVM on which he sent a SOS call for help Dec. 1 1919 off the Washington Coast. "Thirty" to a very fine man and a beloved member of the Society. His name has become legend in the Wireless fraternity.

SAD NOTE

Report from Portland, Oregon Area Rep. John Peel on 15 April 1975 informs of passing of XYL Mary of our Spark-Gap Pioneer Member - Joseph H. Hallock, sometime during second week of April. Cause unknown. Our good member "Joe" recently returned from the hospital and rest home after a very serious illness.

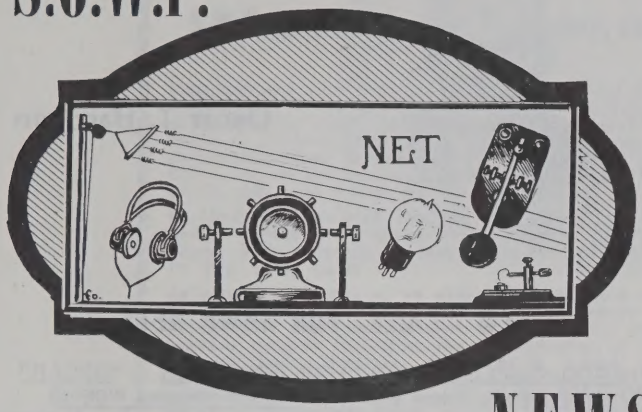
S.O.W.P.



NEWS

HISTORICAL

Nearly 8 years ago our first President, Richard Johnstone started the SOWP CW NET from his station K6FQ on the evening of Oct. 9th 1968. A handful of 'old-timers' checked in that night but it was the beginning of what has become quite a sizable organization. We think "Dick" or "RJ" as he was known to many deserves great credit for starting a project that has brought so much joy and happiness to so many members over the years. Our beloved "Dick" became a Silent Key, Oct. 9 1972. The SOWP NETS are a living memorial to this very fine gentleman.

It was Dick's idea that while not all members had amateur stations, it would provide those who did with a time and spot on the dial for them to again contact some of their old shipmates and would let them limber up their CW fists once again, which he thought many would enjoy . . . ahd indeed they have.

Some very mature thought has gone into the 'reason and purpose' of SOWP NETS over the past years and we are pleased to bring you a bit of philosophy developed by Area Director "Pete" Fernandez -W4SM and Wm. C. "Bill" Willmot - K4JPF, Vice President P&R, which we think "fit in" with Society objectives and purpose. It reads as follows:

SOCIETY & CHAPTER NETS

"Perhaps some of the members of the Society see our "Nets as a typical traffic handling medium. Nothing could be further from the truth. If this is what you believe our nets are , please read on.

SOWP NETS, both Society and Chapter, were established to provide a means whereby members with amateur licenses could get together periodically for an on-the-air meeting and rag-chewing. Additionally, to provide non-amateur members who have receivers capable of copying "ham" bands, a chance to listen in and keep abreast of recent happenings of the Society, their chapters and members.

Society/Chapter Nets, usually start off with the Chief Operator (CHOP) or alternate making a general call and then sending out a general bulletin consisting of the names of new members, changes of address, silent keys and other items of interest to the members. Stations monitoring are then invited to check in and make a few comments or to arrange with other stations checked-in to "QSY" for a 'rag-chew' off frequency. It is the one time and place that members can be sure of meeting other members on the air.

The SOWP net/s are social and fraternal nets. There is no commitment on the part of anyone (other than the Chief Operator) to check-in regularly or at all. However, members who have the interest and the time are always very welcome. We hope all members will listen in occasionally, and when the spirit moves you, we hope you'll give the Chief Operator a call. You'll be glad you did. "

oOo

With expanding membership, we hope that SOWP NETS can become even more meaningful. CHOP Robert L. " Bob" Shrader - W6BNB who has piloted the nets for the last several years and turning over the Chief's job at the close of the winter season (June 6th 1975) to OSCAR T. HARRISON - W5QKU) suggests the following as the answer to the problem . . . "WHEN & WHERE" can we contact each other except on net days and skeds ?

"Our basic fcy is 3555 kHz. Try using any fcy. approximately 55 kHz inside any CW or phone band edge as a calling fcy. The basic calling times to be 55 minutes AFTER any hour.

For example/s: For the 3.5 mHz band; 3555 kHz for CW. 3775 - 55 = 3720 kHz (for Novice members. 3775 + 55 = 3810 for Advance Phone. 4000 - 55 = 3945 kHz for for general phone. Similar computations for 7, 14, 21 and 28 mHz bands.

CALL: "CQ SOWP DE" .... be careful not to call on these fcys if they are being used for some net during that time. Once contact is made, shift to some nearby working fcy to free the calling fcy. "

We would certainly be amiss if we did not , at this point give ROBERT L."BOB" SHRADER - W6BNB ... Our very sincere thanks on behalf of the Society and all its members for . . . a job he handled to perfection for the past several years. He has been a very dedicated member and we all appreciate the intense interest and attention he has given to this assignment.

Our New Chief Operator, as noted above is OSCAR T. HARRISON - W5QKU whose QTH is 422 Artesia, Spring Texas, 77373. Twisted pair call if you can't get him over the air is 713/353-2724. His" first ship was the Greek ship Anna Vassalakis/SVUS to which he was assigned in Baltimore back in 1926 due vacancy. Oscar and XYL Nadean have recently returned from a trip to Europe. While in Amsterdam they enjoyed some 'sightseeing' with "Cor" Glerum - PAØGL, CHOP of SOWP European net. Oscar reports Cor gave them the 'grand' tour of Amsterdam - saw sights he never saw before. Incidentally, Oscar can give any SOWP member the address of a restaurant in London, which has the toughest steaks in all Europe !

To conclude - you don't join a SOWP NET to handle traffic - you join it for a reunion with your brother members all over the world ... just to turn back the pages of time and . . . if you don't have a station, why not buy a receiver and tune in ? It will afford much enjoyment in listening to your old cronies , even sans voice.

Oscar T. Harrison

NEW "CHIEF" FOR SOWP NETS

INTRODUCING OUR NEW CHIEF OPERATOR "OSCAR" T. Harrison who takes over from Robert Shrader W6BNB June 6 1975. Oscar probably needs no introduction to many members as he was an 'early-bird' SOWP'ers, having joined the Society in the Fall of 1968. His number is 207-V.

First assignment was on a 'Greek' vessel, the S.S. Anna Vassalakis/SVUS tied up to a dock in Baltimore harbor and lacking an operator. Oscar says he was the "unlucky" one to draw the assignment. Since then he has had a pretty varied life in communications. Some of the ships he pounded brass aboard include: SS/s Juniata, Grecian, Santa Eulalia, Evansville, Fairfax, A.L. Kent, Winona County, City of Baltimore, Escambion, Iroquois and Black Hawk. He rode a "River" barge as radio operator/ clerk on the MV Franklin D. Roosevelt/WSEC, then went to Scott Field as Code Instructor for the Army Air Force Radio School then did a Wartime stint on the W.H. Ferguson followed by service as operator for the Illinois State Police on CW net and phone at East St.Louis, Macomb, Peoria and Springfield. Later he went to sea on the USNS Mission Santa Ynez /NCFJ and the Velma Lykes. He also held membership in A.R.T.A. and R.O.U. and sailed his last ship with A.R.A. First AMATEUR CALL was back in 1927 "3ATV"

Oscar recently visited "COR" Glerum while in Amsterdam. Cor's call is PAØGL. He says Cor will be looking for SOWP members and suggests calling him on 14004 to 14008 any clear spot in that area at 1300 GMT. He listens for American and Canadian stations then looks them up in the SOWP Directory. If they belong, he gives them a call.

We wish Oscar and W5QKU the best. Bob - W6BNB is a hard act to follow but fortunately SOWP boasts some pretty capable members when it comes to handling traffic !

VE7WZ - "Bill" Filtness (See statistics elsewhere)

SOCIETY LABELS, PINS, PATCHES, STATIONERY, ETC.

S.W.P. Emblems, Labels, Stationery, Etc.

Many members have requested that the Society furnish "Member" letterheads, envelopes, labels, patches, pins, etc. to identify them with the organization. We think it is good promotional service, hence we are furnishing items listed on this page AT NEAR COST. Calif. state tax has been paid. Postage will have to be added, as indicated.

We think members will find these artifacts of considerable social and fraternal use and will enjoy using them. When ordering, please allow for transit time by 3rd class mail.

As a matter of policy, we wish to reiterate a notice that has been made many times, ie: Stationery and other items furnished are not to be used for any commercial purpose including the solicitation of funds for any reason covering political or 'cause' promotion, etc. If you should ever receive such solicitation you will know . . . IT IS NOT AUTHORIZED and we would appreciate being informed without delay.

STATIONERY PRICES

QUANTITY:	50	100	250	300
Letterheads - 8-1/2 x 11"	1.50	2.50	5.00	--
Postage extra	.40	.80	1.25	
Noteheads 5-1/2 x 11"	1.00	1.50	3.00	
No. 6 Envelopes	1.25	2.00	5.00	
Postage extra	.32	.72	1.15	

Combination Pack, 25 Env. 50 Noteheads - $1.25 ppd.

The above limited for use by members for fraternal or social correspondence only.

GUMMED LABELS

❶ Blue field - white letters measures 1-3/8" Octagon shape

❷ Blue field - white letters Measures 3-3/4 long x 1"

❸ COLOR - RED FIELD
Size - 1-3/4 inches across

PLEASE SPECIFY TYPE WHEN ORDERING

TYPE	QUANTITY	100	200	500
1.		.80	1.50	3.50
2.		1.00	1.75	4.25
3.		1.25	2.25	5.25
Postage . . .		.10	.20	.50

Note: Occasionally, the die-cut is not perfect. We mail (random choice). We think you will find most all usable. Printed sizes above are about 65 percent of original size - see actual measurement/s stated for exact sizes. You will find these add prestige to correspondence, QSL cards, etc.

Embroidered Patches

These "PATCH" Emblems measure 4 inches across and are beautifully embroidered on a durable and washable cotton twill background with the finest threads available and in nearly 10 matching colors. They are truly a work of CUSTOM EMBROIDERED ART that you will thrill to wear at HAMFESTS and in fact on any or all occasions when a patch might be used for identification of your association with the Society. Price is $1.50 each

Mailed ppd. by first-class mail. We thank members, Geo. Maczali at KLC Galveston Radio (ITT)(K5STR) and Ed. Marriner for putting us in touch with manufacturers. Available July 15th.

Tackett Pins

TACKETT PINS which can be used as a tie-tac or lapel pin w/o damage to fabric is a quality made product that we are proud of. It is made of STERLING SILVER by "Jostons" - perhaps the most outstanding manufacturer of silver jewelry of this kind in the U.S. The are very durable and extremely attractive. Pin size measures 3/8" body and5/8" across spokes. PRICE (our cost) is $5.60 each ppd. via insured mail in the US. Airmailed to other countries at same price but we do not guarantee although every precaution taken. If you are not more than 100 percent satisfied, return in mint condx w/case and we'll refund full cost. less mailing expenses. Always a waiting list for them and supply is limited. Should you ever want to sell. let us know and we will arrange disposition.

Irreplaceable Memorabilia Lost Forever

Every year, some of our members become Silent Keys due to our age group. Families, not knowing that the pictures and notalgic records are of any value, throw them out as so much 'junk' or 'trash'. We hope our members will think about it and either arrange to sen send us books, pictures and all types of memorabilia before too late - or at lease leave instructions in their will that we be made the legatee of such material. This is important. The Society will appreciate your thoughfulness.

QUOTATIONS

The above prices quoted are at our cost plus only a very small amount for packaging. They will remain in effect as long as stock on hand allows us to fill orders. Be sure in each case to include POSTAGE for mailing. Some items are in short supply and we are sure replacement stock will cost much more. It must be clearly understood in ordering stationery, labels etc., that they will not be used for other than fraternal and social use or in the promotion of the Society itself. They are not to be used in any commercial, political manner or for any solicitation of any purpose.

Treasurer's Report

SUMMARY OF RECEIPTS & EXPENDITURES FOR YEAR
- - 1974 - -

RECEIPTS

Initiation fees, dues, emblems, etc. during calendar year 1974...	8733.54
Legatee of Asplund Estate. Final payment (Federal & State taxes deducted)	789.10
Interest on Savings Accounts . .	1223.44
(1974) Total Receipts	10746.08
On hand Dec. 31, 1974	22574.19
Total	33,320.27

EXPENDITURES (As Itemized)

A.	Printing (General)	392.08	*
B.	Postage & Mailing costs	822.34	
C.	Publication costs	6849.45	
D.	Office supplies	416.95	
E.	Technical & Reference	200.72	
F.	Shipping & Drayage	128.59	
G.	Bank Charges & Fees	7.31	
H.	Meeting Expenses	53.30	
I.	Insurance & Bonding (Note #1)	475.00	
J.	Work Contracts	86.40	
K.	Compensation/Wages (Note #2.)	1436.66	
L.	Misc. Adm. Expenses	2.90	
M.	Misc. (Not otherwise covered)	18.62	
N.	Transfer of Funds	5.50	
O.	Remembrance cards, etc.	3.16	
P.	Equipment purchased for SOWP	1247.66	
Q.	Emblems, Pins, etc.	676.18	
R.	Member Stationery/Labels	110.27	
S.	Certificates/Awards	190.34	
T.	Taxes	6.66	
U.	Utilities. Power/Telephones	66.60	
V.	PR & Promotional	765.02	
W.	Chapter Expenses Paid	82.60	
X.	Rent	1254.90	
Y.	Member refunds	6.90	
	Total Expenditures	$ 15,306.11	
	On hand Dec. 31, 1974	18,014.16	

Note 1. Includes premium/s for Liability Insurance and bonding of those handling Society funds to $20,000.

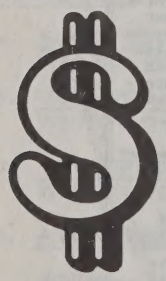
Note 2. Paid for office help, collating of publications etc. None to Members or Officers of the Society (all such help was on a volunteer basis)

This is to certify that I have checked all records of the Society of Wireless Pioneers for the Calendar year 1974. I find this to be a true and correct copy of fiscal records as furnished me.

s/ Lorin G. DeMerritt
Treasurer

Jan. 29 1975

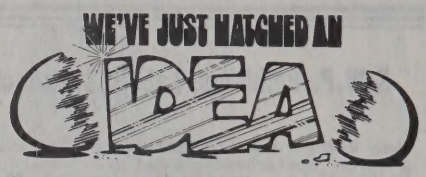
(*) Uneven column due mechanics of proportionate spacing typewriter used.



We were going to use the symbolic ($) dollar mark at left to head the Fiscal report of our Treasurer, Lorin G. DeMerritt but on second thought, it seamed that a horse-shoe peg and the 'pony-slippers' in his case was more appropriate.

Above we note a 50 percent 'ringer' average. This is doing our Treasurer a disservice, as to the disgust of the Ancient Mariner who plays him quite regularly, any 'ringers' Ye A.M. throws is quickly negated causing Ye A.M. to utter two and five letter words. . . "Oh fudge!"

While Ye A.M. takes a 'shellacking' about 24 out of 25 games, Lorin gets 'wild and reckless' (forgets to eat his wheaties or overindulges' then Ye Ed sneaks in a game. However its good fun with a grand fellow and on top of that much needed exercise.



SOCIETY PUBLICATIONS

Frequently we receive calls for early publications of the Society. Regretfully, our print orders have allowed only a small over-run at time of printing and as new members joined Society, extra copies were absorbed by them, leaving us with only library copies which we do not release.

It is likely that some members, after reading would be willing to release them to others who would like to read.

Following is what we believe to be an equitable price for SOWP publications. We will not purchase ourselves but will put you in touch with those interested in either buying or selling. In all cases a S.A.S.E. should be furnished with your request, both to save us time and eliminate any added expenses incident to handling (postage, etc.)

SUGGESTED PRICES ON "Mint Condx" copies. Seller to pay postage. Book Rate (SPECIAL 4th CLASS) is 18 cents for the first pound and 8 cents thereafter:

Price	Year	Pages	Title of Publication.
$2.50	1968	38	Ports O' Call (POC)
3.00	1969	76	Wireless Pioneer (Biograph early Mbrs
3.50	1968-9	66	POC.
1.00	1970	38	Year Book
4.00	1971	120	Year Book*
3.00	1972	98	News Letter *
5.00	1973	130	Year Book *
1.00	1973	48	Directory/Call Book
.50	1973-4	20	SPARKS I
2.00	1974	68	SPARKS II
2.50	1974	108	SPARKS III

(* Similar in content to POC.)

The Society will not be responsible for transactions. Be Sure and Specify whether you OFFER or WANT TO BUY... and ... include a stamped return addressed envelope with request.

In case (Want to buy) we have no offers on hand, we will return with that information unless you request us to HOLD until copy/s are available.
